MOTORCYCLE ACCESSORIES

MAKING LIFE ON BIKES BETTER SINCE 1973

A GLOBAL LEADER

A GLOBAL LEADER IN MOTORCYCLE AFTERMARKET PRODUCTS

Established in 1973, OXFORD is now one of the world's leading suppliers of products to the two-wheeled industry. From its base in Oxfordshire, the company distributes to around 100 partners worldwide and around two thousand domestically.

Its huge range of products encompasses everything which makes life on bikes better: from clothing and helmets to accessories, hard parts, locks and luggage and more! Following unprecedented investment in staff, product development and infrastructure, the company now employs around 170 people.

Having established an impressive growth curve, which has seen turnover doubling every 5 years, the company has further ambitious expansion plans both at home and abroad.

COMMITTED TO DEVELOPMENT

OXFORD products are designed in-house by a combined team of active enthusiasts and skilled technicians. They use the latest CAD technology and 3D printing techniques to innovate, analyse, test and develop the range in pursuit of the best product experience for their customers.

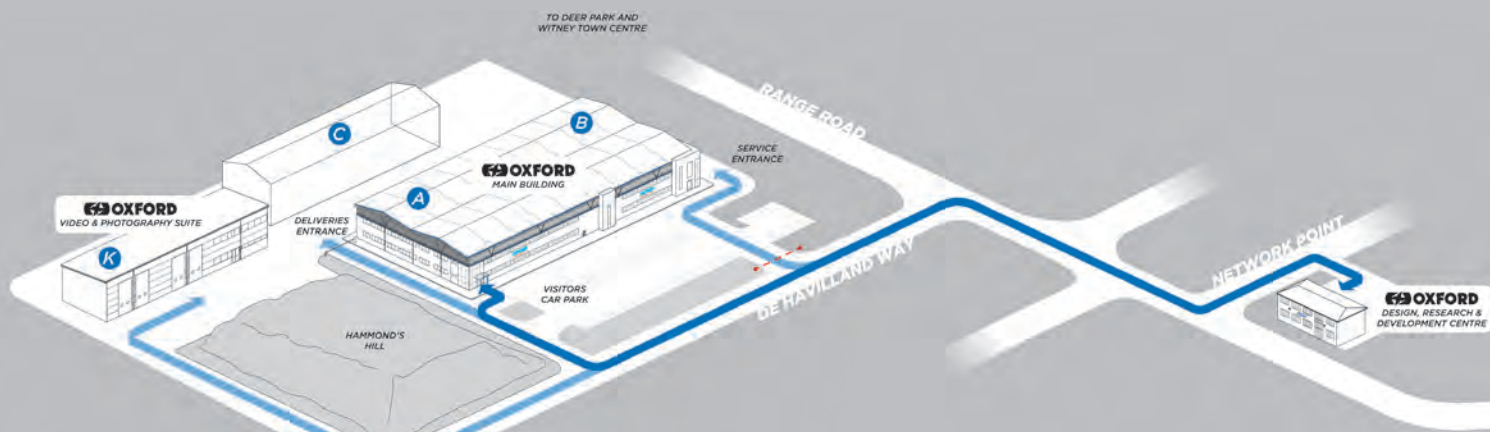

In addition to OXFORD branded products, the company uses its expertise to design and produce for many other labels around the world. Like many of its products, which have wider appeal in other leisure and outdoor-based markets, this activity is not restricted to the two-wheeled industry.

Making life on bikes better since 1973

OXFORD HQ

A bespoke 100,000 SQ FT facility opened by Prime Minister David Cameron in 2014 has recently been expanded with additional warehousing, a video & photography suite and a new Design, Research & Development Centre

AROUND THE WORLD

OXFORD is a remarkable British success story!

For nearly five decades the company has waved the flag for British ingenuity and innovation and is proud to have distribution partners in all corners of the globe.

In return, foreign markets have provided many fresh ideas to OXFORD's product range; the challenges of widely varying climates, customs and terrain have only served to enrich the company's offering.

You will find a full distributor list at www.oxfordproducts.com. Please contact us for further information:

DESIGN DEVELOPMENT PROCESS

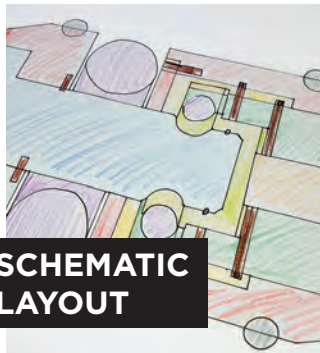

At its heart, Oxford is a products company – Oxford Products! The team develops its products in-house, increasingly through the use of Computer Aided Design. In order to maximise the benefits of CAD, the company has invested in the latest 3D print technology.

This means that a product or component designed today can be printed off overnight and tested tomorrow. The day after, our factory can be making the moulds and production can begin shortly after. In this way, product development time is dramatically reduced and the end result far more relevant and ambitious. Here is a typical design cycle for an Oxford product...

SECURITY

Motorcycles are fundamentally more vulnerable to theft than most other forms of transport, but they need not be. The use of a good lock will protect a motorcycle against most forms of attack and reduce the theft rate dramatically. Incredibly, motorcycle security experts still believe that well over half of all motorcyclists use no form of physical security other than the steering lock, which itself offers very little resistance to a determined attack.

Furthermore, just like an alarm or an immobiliser, the steering lock does not prevent thieves from simply lifting the motorcycle into the back of a van and transporting it to a garage where they can re-mobilise the bike at their leisure.

These figures are supported by recent research carried out by Oxford Products Ltd in the UK's capital London, the UK's worst theft hotspot. A survey of 736 bikes revealed just 287 using locks, meaning that 61% of bikes were unsecured! If you want to keep your bike, the best advice is simple: Lock it up!

THE FACTS ABOUT THEFT

Motorcycle theft remains a huge problem, both in the UK and abroad. Every year thousands of motorcycles are stolen and motorcyclists are disappointed and inconvenienced as a result.

- It takes approximately 12 seconds to steal an unprotected motorcycle.
- Approximately 70 motorcycles are stolen every day in the UK and less than 14% of stolen motorcycles are recovered.
- Theft accounts for one third of insurance claims and 40% of owners who have their bike pinched give up on bikes.

UNBELIEVABLY...

- More than half of all motorcyclists neglect to use ANY form of motorcycle security!

According to police statistics, 50% of bikes are stolen by the opportunist or "Joy-rider". Incredibly, they also estimate that 60% of riders do not lock their machines. Reduce the risk of theft by following these simple steps:

- Buy the best lock you can afford and always use it.
- Alarms can be very effective but only really effective when in conjunction with a lock.
- If you have a garage, always use it and remember to lock the bike and set the alarm - otherwise cover your bike when outside.
- When parking your bike try to avoid using the same spot every day and lock your bike to a secure immovable object, such as a ground anchor.
- Never leave your lock resting on the ground and always lock it as tight to your bike as possible - this makes it much more difficult to attack.
- Remember to maintain your lock. Keep it free from dirt and oil moving parts regularly. If your lock stops working, you won't be able to use it!

INDEPENDENTLY TESTED

SOLD SECURE

Sold Secure is the premier testing and certification house for security products in the UK. It is owned by the Master Locksmiths Association, the largest and longest established trade association for the locksmithing industry. It is the mission of Sold Secure to test and provide professional and accurate advice regarding effective security products to Commercial Customers, the Insurance Industry, the Home Office, the Police and the Public.

www.soldsecure.com

SECURED BY DESIGN

The official police security initiative that works to improve security. SBD's product based accreditation scheme - the Police Preferred Specification - provides a recognised standard for all security products that can deter and reduce crime. SBD is the only way for companies to obtain police recognition for security-related products in the UK.

www.securedbydesign.com

MOTORCYCLE DIAMOND SPEC

5 minutes, much higher tool list including angle grinders, largest bolt croppers, machine-based crop test to ensure at least 7 tonnes of force is achieved, drill with HSS bits, etc.

MOTORCYCLE GOLD SPEC

Aimed at preventing more dedicated attacks; 5 minutes; higher tool list inc. TCT hacksaw, larger croppers, larger crowbars, lump hammer, etc.

MOTORSCOOTER SILVER SPEC

Aimed at preventing more determined attacks; 3 minutes; enhanced tool list including small bolt croppers, full size hacksaw (HSS), stillsons, crowbar, etc.

BICYCLE BRONZE SPEC

Aimed at preventing opportunist theft; 1 minute attack time; basic tools that can be easily concealed about the person, i.e. screwdriver, small hammer, junior hacksaw, etc.

OTHER INTERNATIONAL APPROVALS

Oxford offers a range of security products which have been tested and approved to various international security standards.

CHAIN LOCKS

BEAST

Maximum security chain lock

Some say that size doesn't matter. When it comes to locks, it matters! The Oxford BEAST is our strongest and largest ever lock, it's so big it comes with a health warning on the box: WARNING - HEAVY! The lock alone weighs 3.6KG, the chain up to 15.5KG!

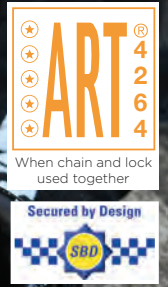

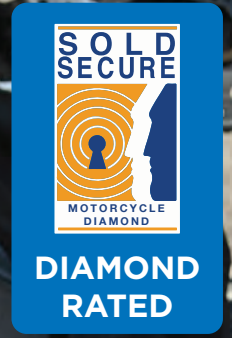

PADLOCK FEATURES

- 30mm hardened locking pin
- Designed to resist angle-grinder attack
- Surface hardened throughout
- 3.6kg weight

CHAIN FEATURES

- Durable 22mmø painted links
- Designed to resist angle-grinder attack
- 12 - 15.5kg weight

CODE	DESCRIPTION
LK126	Beast Chain- 1.5m
LK127	Beast Chain- 2.0m
LK120	Beast Lock

NEMESIS

16mm round link chain & 16mm shackle padlock

FEATURES

- Chain made from hardened Ni-Cro-Mo steel, reinforced with titanium alloy
- Available in 1.2m, 1.5m & 2.0m lengths
- Shock resistant padlock with rubber over-moulding
- Anti-pick and anti-drill lock cylinder

CODE	DESCRIPTION
LK472	Nemesis - 1.2m
LK473	Nemesis - 1.5m
LK474	Nemesis - 2.0m
LK470B	Nemesis - Padlock Black unpackaged

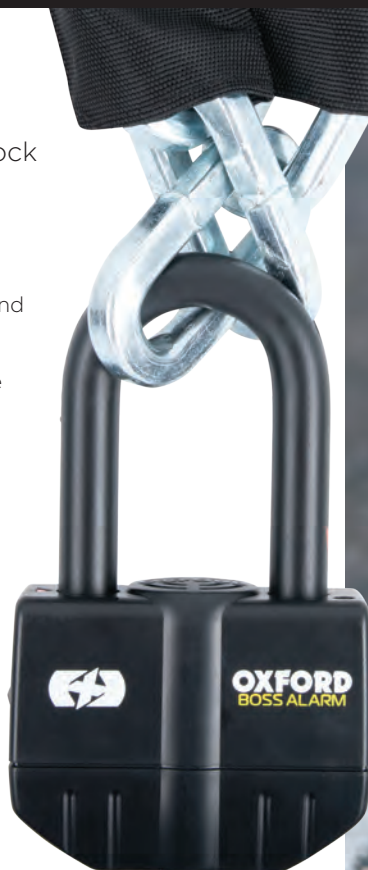

CHAIN LOCKS

BOSS ALARM

12mm square link chain
& 16mm or 14mm shackle padlock

FEATURES

- Chain made from hardened Ni-Cro-Mo steel
- Available in 1.2m, 1.5m & 2.0m lengths
- Anti-jack design padlock can withstand 4.5 tonnes of tensile load
- 6 x LR44 batteries included
- Removable, sealed unit alarm module

CODE	DESCRIPTION

BOSS

12mm square link chain & 12.7mm shackle padlock

FEATURES

- Chain made from hardened Ni-Cro-Mo steel
- Available in 1.2m, 1.5m & 2.0m lengths
- Anti-pick & anti-drill lock cylinder
- Double locking mechanism

CODE	DESCRIPTION
LK382	Boss - 1.2m
LK383	Boss - 1.5m
LK384	Boss - 2.0m
LK380B	Boss - Padlock Black Unpackaged

CHAIN LOCKS

HARDCORE XC13

13mm square link chain
& 11mm shackle padlock

FEATURES

- Chain made from hardened Ni-Cro-Mo steel
- Available in 1.2m, 1.5m & 2.0m lengths
- Ultra-strong padlock made from hardened boron steel armour casing
- Shock resistant rubber over-moulding

CODE DESCRIPTION

LK170	Hardcore XC13 - 1.2m
LK171	Hardcore XC13 - 1.5m
LK172	Hardcore XC13 - 2.0m
LK169	Hardcore XC13 - Padlock Black Unpackaged

HD MAX

12mm square link chain
& 14mm shackle padlock

FEATURES

- Chain made from hardened Ni-Cro-Mo steel
- Available in 1.2m, 1.5m & 2.0m lengths
- Padlock with anti-pick & anti-drill lock cylinder
- Double locking mechanism

CODE DESCRIPTION

LK307	HD Max - 1.2m
LK308	HD Max - 1.5m
LK309	HD Max - 2.0m

DISCUS CHAIN 10

9.5mm square link chain
& 10mm shackle padlock

FEATURES

- Chain made from hardened steel
- 1.5m long
- 10,000 possible combinations
- Stainless steel padlock, rust resistant body

CODE DESCRIPTION

LK101	Discus Chain 10 - 1.5m
-------	------------------------

HD CHAIN

10mm square link chain & 14mm shackle padlock

FEATURES

- Chain made from Cro-Mo steel
- Available in 1.2m, 1.5m & 2.0m
- Double locking mechanism

CODE	DESCRIPTION
OF157	HD Chain - 1.0m
OF159	HD Chain - 1.5m
OF160	HD Chain - 2.0m

GP CHAIN 10

10mm round link chain & integral lock

FEATURES

- Made from hardened steel
- Available in 1.2m, 1.5m & 2.0m
- Integral lock head
- 360° rotating lock head
- Supplied with 4 keys

CODE	DESCRIPTION
LK107	GP Chain 10 - 1.2m
LK108	GP Chain 10 - 1.5m
LK109	GP Chain 10 - 2.0m

GP CHAIN 8

8mm round link chain & integral lock

FEATURES

- Made from hardened steel
- Available in 1.2m, 1.5m & 2.0m
- Integral lock head
- 360° rotating lock head
- Supplied with 4 keys

CODE	DESCRIPTION
LK104	GP Chain 8 - 1.2m
LK105	GP Chain 8 - 1.5m
LK106	GP Chain 8 - 2.0m

OTHER LOCKS

LEVERLOCK

Brake lever & throttle lock

FEATURES

- Fits grips 28mm-38mm
- Compact, so convenient to carry on bike or in a bag
- Simple push to lock feature
- High visibility security

CODE	DESCRIPTION
------	-------------

LK300	Leverlock - Black
LK301	Leverlock - Yellow

BARRIER

Armoured cable lock

FEATURES

- 25mm x 1.4m braided steel cable
- Protected by steel rollers
- Vinyl coating to protect paintwork
- Integrated lock cylinder dust cover

CODE	DESCRIPTION
------	-------------

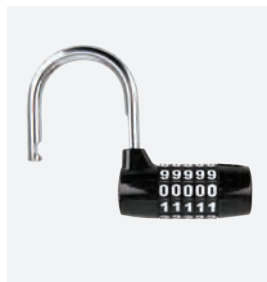

LK135	Barrier - Smoke
LK136	Barrier - Blue
LK137	Barrier - Red

COMBINATION PADLOCK

5-digit combination padlock

FEATURES

- Hardened steel construction
- 7mm shackle
- Weight: 178g

CODE	DESCRIPTION
------	-------------

LK102	5-digit combination padlock
-------	-----------------------------

RETRA CABLE

Retractable combination cable lock

Ideal lock for accessories & clothing

FEATURES

- 4-digit resettable combination
- Lightweight: 80g
- Slashproof braided steel cable
- 2.4mm x 620mm

CODE	DESCRIPTION
------	-------------

LK100	Retra Cable
-------	-------------

LOOP LOCK 15

Cable and mini shackle lock

FEATURES

- 12mm Shackle
- 15mm x 2.0m High tensile steel self-coiling cable
- Vinyl coating to protect paintwork
- Can also be used as a disc lock

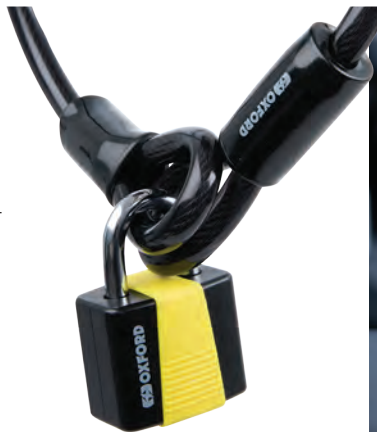

CODE	DESCRIPTION
LK221	Loop Lock 15

LOOP LOCK 10

Hooped cable and padlock

FEATURES

- 7mm Shackle
- 10mm x 1.8m High tensile steel self-coiling cable
- Vinyl coating to protect paintwork
- Can also be used as a padlock

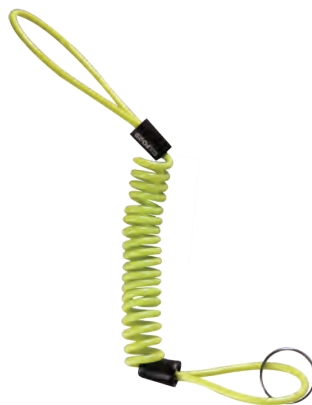

CODE	DESCRIPTION
LK222	Loop Lock 10

MINDER CABLE

Essential lock reminder cable

FEATURES

- 4mmø plastic cable
- Simple to use
- Lightweight construction
- 1.2m when stretched
- Highlights use of lock to thieves

CODE	DESCRIPTION
OX795	Minder Cable (pack of 25)

MINI MINDER

Essential lock reminder cable

FEATURES

- 2.5mmø plastic cable
- Simple to use
- Lightweight construction
- 1.2m when stretched
- Highlights use of lock to thieves

CODE	DESCRIPTION
OX669	Mini Minder

U-LOCKS

MAGNUM

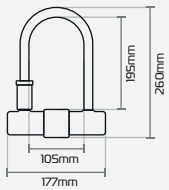

Ultra strong U-Lock

FEATURES

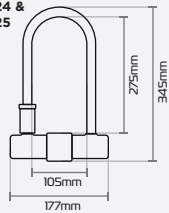

- 16mm hardened shackle
- Double locking mechanism
- 285mm & 315mm versions available
- LK225 comes with lockable cable

LK223

LK224 & LK225

CODE DESCRIPTION

LK223	Magnum - 285mm
LK224	Magnum - 315mm
LK225	Magnum - 315mm Duo

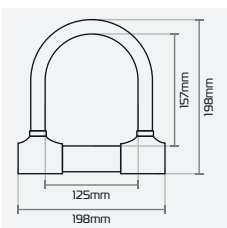

ALARM-D

High security U-Lock with alarm

FEATURES

- 16mm hardened shackle
- Built-in 120dB alarm
- Shock-resistant rubber over-moulding
- Powered by long-life lithium CR2 battery (replaceable)

CODE DESCRIPTION

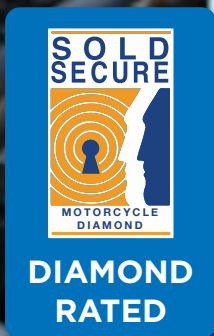

LK220	Alarm-D

ANCHORS

OXFORD
BEAST

NEW BEAST FLOOR LOCK

Maximum security integrated floor lock

The Beast Floor Lock - the all-in-one security solution - is an extra strong bolt-down anchor.

The Beast has achieved a Sold Secure DIAMOND rating, ensuring it is able to withstand forceful and sustained attacks. To be awarded a DIAMOND is no small feat. The Beast has passed attack tests from a huge range of tools, commonly used by thieves including, pliers, bolt croppers, drill, and most impressively a 90 second angle grinder attack.

The Beast Floor Lock has a key replacement service. When you buy your Beast Floor Lock, simply note down the number which comes attached to the keys on a metal tag. Keep this in a safe place, then in the event that you are unfortunate enough to lose all your keys, it will be possible to get a new key made up for you.

FEATURES

- 30mm hardened locking pin
- Designed to resist angle grinder, pliers, bolt croppers attack
- All fittings included

Already have a Beast lock?

Convert it in to a floor lock with this handy adaptor

ADAPTOR

CODE	DESCRIPTION
LK115	Beast Floor Lock
LK113	Beast Floor Lock Adaptor

ANCHORS

DOCKING STATION

Ground / wall anchor with integrated lock

FEATURES

- Fits up to 16mm chains
- Combines the rigidity of an anchor with the flexibility of a chain
- Made entirely from forged hardened steel
- All fittings included

CODE DESCRIPTION

LK401 Docking station

BEAST ANCHOR

High security ground / wall anchor

FEATURES

- Hardened steel double layer construction
- Fits all oxford chains and locks
- 22mm Beast chain compatible
- All fittings included

CODE DESCRIPTION

LK403 Beast Anchor

ROTAFORCE

High security rotating ground anchor

FEATURES

- 26mmø hardened ring
- Rotating head allows easier fitment and better bike positioning
- 59mm internal diameter
- All fittings included

CODE	DESCRIPTION
------	-------------

LK400	Rotaforce
-------	-----------

ANCHORFORCE

High security ground / wall anchor

FEATURES

- Hardened steel double layer construction
- Fits up to 16mm chains
- Designed to resist angle grinder attacks
- All fittings included

ANCHORS

TERRAFORCE

High security case-hardened steel ground anchor

FEATURES

- 24mmø hardened ring
- Simple concrete-in design
- 54mm internal diameter
- All fittings included

CODE DESCRIPTION

LK402 Terraforce

NEW STRIKEFORCE

High security ground / wall anchor

FEATURES

- Fits up to 16mm chains
- Bolts protected by ball bearings once fitted
- All fittings included

CODE DESCRIPTION

LK409 Strike Force

NEW TASKFORCE

High security ground / wall anchor

FEATURES

- Fits up to 16mm chains
- Folds flat when not in use
- Hardened steel 14mm shackle
- Tough polymer housing
- All fittings included

CODE DESCRIPTION

LK408 Task Force

BRUTEFORCE

High security ground / wall anchor

FEATURES

- Fits up to 14mm chains
- Can be used on floors or walls
- Bolts protected by ball bearings once fitted
- All fittings supplied

CODE DESCRIPTION

LK397 Bruteforce

DISC LOCKS

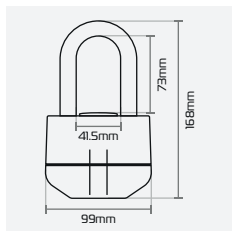

BOSS ALARM

Ultra strong alarm lock

FEATURES

- Choice of 14mm and 16mm hardened steel shackles
- Very loud 100dB alarm
- Anti-jack design can withstand 4.5 tonnes of tensile load
- Can be used with or without removable, sealed unit alarm module

CODE	DESCRIPTION
OF3	Boss Alarm 14mm - Yellow
LK484	Boss Alarm 16mm - Black

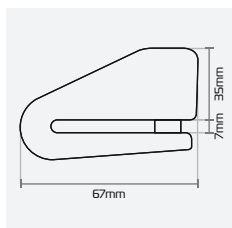

ALPHA XA14

Super strong alarm disc lock

FEATURES

- 14mm hardened locking pin
- Very loud 110dB alarm
- Forged stainless steel construction
- Rechargeable lithium polymer battery (USB cable included)

CODE	DESCRIPTION
LK217	Alpha XA14 - Yellow
LK218	Alpha XA14 - Black

DISC LOCKS

QUARTZ XA10 + XA6

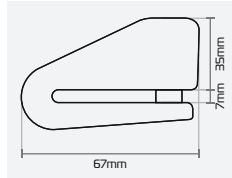

High security alarm disc locks

FEATURES

- 10mm or 6mm hardened locking pin
- Very loud 110dB alarm
- Twin spar lock chassis for double strength and cut resistance
- Rechargeable lithium polymer battery (USB cable included)
- Push to lock

110dB

CODE	DESCRIPTION
LK216	Quartz XA10 - 10mm
LK215	Quartz XA6 - 6mm

MICRO XA5

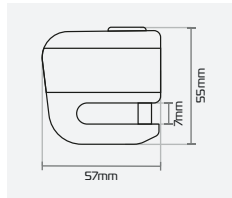

High security alarm disc lock

FEATURES

- 5mm hardened locking pin
- Very loud 110dB alarm
- Universal fitment for all scooters
- Rechargeable lithium polymer battery (USB cable included)
- Minder cable included
- Push to lock

110dB

CODE	DESCRIPTION
LK213	Micro XA5 - Yellow

REAR WINDOW IN USE

STORMEX

Ultimate outdoor motorcycle cover

FEATURES

- Externally bonded seams for maximum rain protection
- Heat resistant lining material in case of momentary contact with exhaust
- Soft lining protects against scratches
- Reflective panels increase visibility at night
- Tough outer protects against weather & knocks
- Strategically positioned holes facilitate the use of a lock with lock pouch helps to keep your padlock off the ground
- Adjustable belly strap holds it in place
- UV colourfast solution dyed fibres
- Wrap around splash protector prevents water from being absorbed up the lining
- Rear window allows the number to be visible, but an internal 'curtain' enables it to be covered
- Front inner pocket with PVC window to hold a solar panel charger (Oxford Solariser - see page 48)

OFFERS PROTECTION AGAINST

"THE ALL -SINGING, ALL-DANCING Oxford cover is the second most expensive product in the test but the highest scorer... It offers serious protection against the elements. The material proved water, abrasion and heat resistant, and should last a good few years."

COVERS

AQUATEX

Essential outdoor motorcycle cover

FEATURES FOR ALL AQUATEX COVERS

The Oxford Aquatex is THE essential motorcycle/scooter cover. As you would expect from the world's best-selling motorcycle cover it comes packed with useful features and is built to last.

Designed for both outdoor and indoor use, it offers protection against rain and dust. Police initiatives have also shown that bike covers can be a useful theft deterrent. This is especially true if you securely the belly strap in place and use the cover in conjunction with a chain lock, threaded through the lock holes provided, securing both motorcycle and cover in place at the same time.

The UK's most respected motorcycle consumer title Ride Magazine rated the Aquatex BEST BUY in their market review. They praised the combination of weatherproofing, quality construction, useful additional features and incredible value.

OFFERS PROTECTION AGAINST

- Double-stitched polyester for strength and durability
- Complete exterior and interior protection - can be used both as an outdoor rain cover and an indoor dust cover
- An elasticated base with a belly strap creates a snug, secure fit
- Comes with a zipped carrier, to store away compactly when not in use
- Strong but lightweight material is UV resistant, so does not degrade in sunlight
- Double PU coating for optimal waterproofing
- Available in 6 sizes including MP3 and High-screen bikes

"Stocked widely by motorcycle dealers all across the country, this is a lightweight, low-priced and highly effective cover that's easy-to put on and take off."

BATTERY CARE

THE IDIOT'S GUIDE TO THE OXFORD OXIMISER 3X AND OXIMISER 900

Attach to your battery and it will charge until the battery has reached full capacity and thereafter ensure that it is kept in tip-top condition. If the battery is deeply discharged it will recover it with a varying charge rate and then it never drops below the critical voltage level of 12.6V. The digital displays and battery level indicators keep you informed every step of the way. They are suitable for use on a variety of vehicle batteries - see guidance below.

NOTE: If a battery is left discharged for even a short period of time and remains under 11.9V, permanent damage will occur and even the smartest battery charging methods are unlikely to recover the battery to a useable condition.

BATTERY CHARGER KEY

Polarity Check

Checks the battery leads have been connected correctly

Bulk Fast Charge

Charges at a fast rate to bring the battery to approximately 85% capacity

Battery Condition

LED lights indicate a weak or strong battery

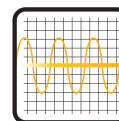

Battery Analysis

Assesses battery & determines best charging method

Absorption Charge

Lowers the charge rate & gives a topping charge to ensure the battery is charged to 100%

Float Charge

Applies a small float charge current to ensure the battery voltage and condition remain optimised

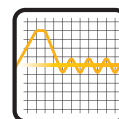

Soft Start Charge

Controlled build up of charge current ensuring discharged batteries are charged safely

Voltage Check

Hourly voltage checks assess battery health

Maintain Mode

Applies an appropriate charge if voltage drops outside acceptable limits to ensure the battery voltage and condition remains perfect

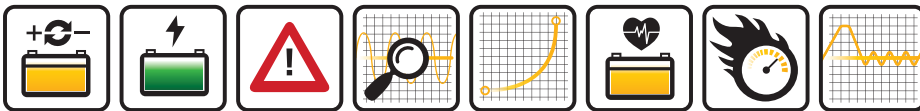

OXIMISER 3X

Advanced battery management system

The Oximiser 3X is Oxford's most versatile, most powerful, multi-purpose battery maintenance product. It offers not one, but THREE automated charging programs for differing battery sizes - perfect for bikes, cars, even leisure batteries! So, if you have multiple toys in your garage, it's the only battery optimiser you are ever likely to need. LCD display provides a wealth of information so that you know what it is doing at all times

8 STAGE BATTERY MANAGEMENT CHARGE PROGRAMS:

3 SELECTABLE CHARGE POWER MODES:

SUITABLE FOR USE WITH VARIOUS BATTERY TYPES UP TO 125AH CAPACITY:

LEAD ACID ✓
GEL ✓ AGM ✓

LITHIUM ✓

PARTS INCLUDED

Battery Clamps

6mm Ring Leads

FEATURES

- Designed and tested in the UK using top quality long-life components
- A 2 year warranty is included as standard
- A 'soft-start' charging mode to improve recovery of deeply discharged batteries as low as 8 volts
- Intelligent charging will 'cycle-charge' in an attempt to recover sulphated batteries
- Suitable for all 12V automotive batteries including LITHIUM lifePO4 motorcycle batteries
- New voltage sensors quickly detect high current drain and will automatically revert to the most appropriate charge rate
- Soft touch rubberised case for improved grip and ruggedness
- Wall bracket included

OXIMISER 601

Essential battery optimiser

A modern charger designed to charge, optimise and prolong the life of a 12V automotive battery. It uses a continuous yet variable charge current to ensure that the battery is charged correctly. If a load is applied to the battery, this charger will compensate by automatically increasing the charge current and thereby maintain the battery condition. It can be used with most batteries including Maintenance Free and Gel types. It is ideally suited for charging batteries ranging in size from 4Ah - 30Ah. This covers batteries normally fitted to scooters, motorcycles, golf trolleys, light aircraft, ride-on lawn mowers and small (such as classic/racing) cars.

3 STAGE BATTERY MANAGEMENT CHARGE PROGRAMS:

SINGLE CHARGE POWER MODE:

BIKE

SUITABLE FOR USE WITH VARIOUS BATTERY TYPES UP TO 30AH CAPACITY:

LEAD ACID ✓

GEL ✓

AGM ✓

LITHIUM ✓

PARTS INCLUDED

Battery Clamps

6mm Ring Leads

FEATURES

- 1 Ventilation
- 2 Battery connection/ polarity error indicator
- 3 LED charge voltage indicator
- 4 Dead battery indicator
- 5 Continuous float charge
- 6 Wall bracket included

Oximiser 601 can be left permanently connected to provide guaranteed long term battery care.

- Recovers deeply discharged batteries
- Protected against short circuit
- 2 year guarantee

WARNING: Not suitable for 6V or 24V batteries. Protected against short circuits. For 240V

BATTERY CARE

SOLARISER

Essential solar battery optimiser

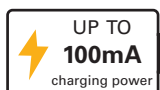

The Solariser is a solar battery charger for maintaining 12V Automotive batteries all year round. Amorphous solar technology can produce output in most lighting conditions. There is no need for direct sunlight as the charger will operate using just daylight. It is ideal for vehicles left outside or in remote lock-ups where the Solariser can be left outside or attached to a window or garage roof, perfect for where there is no mains power source.

FEATURES

- 1.8 Watt Solar battery charger for maintaining 12V automotive batteries all year round
- Perfect for where there is no mains power source
- Ideal for vehicles left outside or in remote lock-ups where the Solariser can be left outside or attached to a window or garage roof
- LED light shows battery will charge with available light
- Operates in extreme temperatures -20°C to 100°C
- Trickle-charge current between 10mA - 100mA
- Weatherproof connectors
- Size (approx): 250 x 180 x 12 mm

SUITABLE FOR USE WITH VARIOUS BATTERY TYPES UP TO 30AH CAPACITY:

BIKE

PARTS INCLUDED

Cigarette lighter charger

DUAL PORT USB CHARGER

1.2m

FEATURES

- Weatherproof Dual USB Power supply socket for fitment to motorcycles, ATVs, Snow mobiles, etc
- Enables charging multiple devices by USB lead (not included)
- High output (2 Amps) will charge ipads, iphones etc
- Heavy duty weatherproof cap keeps the insides dry
- Designed for 22-25mm handlebar mounting but can also be mounted on the mirror stem using the unique adapters provided
- Can be panel mounted if required by removing the outer bracket

CODE
EL102

USB 2.1 AMP

Fused power charging kit

FEATURES

- Suitable for devices such as phones, tablets and sat navs
- Powered from a 12V battery system of a car, motorcycle, boat etc. using an Oxford lead kit
- Robust construction suitable for outdoor use
- The unit must be used with the (2 amp min) fused battery harness included or directly to your existing battery charger lead connector
- Splash-resistant silicone cap protects internal parts
- High quality components and short circuit protection
- Optional adapter included for conversion to US style battery harnesses

CODE

ZERO-G

PADDOCK STANDS

NET WEIGHT: APPROX 4.0 KG
MAX WIDTH: 200mm
MIN WIDTH: 230mm
MAX LOAD: 200KG

OXFORD PADDOCK STANDS

We have been producing the industry's best paddock stands for well over a decade now.

Independent product tests - be it MCN 5-star reviews or RIDE 'BEST BUY' triangles - always yield top marks for stability, ease of use and quality of construction.

More importantly, we enjoy thousands of positive customer views posted on-line, which we scan for ideas on how we might improve our products.

As we set about developing the next generation of Oxford paddock stands, we brought together all of this experience and feedback and created something really very special ... **ZERO-G**.

ENGINEERED TO TAKE THE WEIGHT OFF...

All of our paddock stands are engineered using the latest CAD technology and 3D modelling techniques. By being scientifically designed to minimise the required effort to move a given load, our new ZERO-G range of paddock stands literally take the weight off. Even better, they are able to do this without weighing too much themselves, making them even easier to use and live with.

In fact, they are on average 70% more rigid than previous models, whilst weighing 35% less.

TESTED TO EXTREMES...

The entire range of products was subjected to the rigours of our test laboratory. In the case of ZERO-G paddock stands, the components had to survive our accelerated weathering simulator and then prove themselves in our 5000kg tensile machine, before being tested in real world conditions.

The average bike weighs 210kg, split 60/40 front to rear. That means that a rear paddock stand has to withstand on average 84kg.

Just for fun (because most aren't even paddock stand compatible), the heaviest production bikes in the world weigh over 400kg, meaning that a rear paddock stand would need to be able to deal with 160kg.

ZERO-G paddock stands are all rated to 300kg, but this is with a HUGE safety margin; in our tensile tester, all test examples have withstood at least 1800kg.

CHOICES, CHOICES, CHOICES...

ZERO-G paddock stands cater for all kind of bikes - including those with single-sided swing arms - and preferences, such as a choice of fork- or headstock-mounted front stands.

If you are dashing up and down the pitlane, you'll probably choose our aluminium ZERO-G LITE stands for their minimal 4kg weight. PITLANE PERFECTION.

If you're regularly fettling your pride-and-joy, you might prefer the reassurance of our steel ZERO-G stands. DREAM WORKSHOP.

If you're on a budget or have limited use for stands, you'll also find our brilliant 'standard' paddock stands at the back this brochure, along with all the accessories you might need. HOME MECHANIC.

Whatever your needs, we have the paddock stand solution.

MAKING LIFE ON TWO WHEELS BETTER.

PREMIUM PADDOCK STANDS

For wheels up to 17"

A compact frame construction makes them very rigid and very stable. At the same time, an elongated handle provides excellent leverage, so lifting your bike requires minimum effort.

Their powerful construction makes these stands suitable for the widest possible range of applications - from lightweight to big bikes - and rear stands come with both L-shaped cups for swing arms and forks for bobbins.

The stand comes with free Oxford Clean Grips. You can attach them to the stand for comfortable lifting and then attach them to your handlebar grips before starting maintenance.

FEATURES

- Ultra strong frame. Compact construction with 38mmØ tubular steel frame for ultimate stiffness
- Heavy duty steel clamps for maximum rigidity
- High quality double wheels for smooth lift and maximum stability under load

FRONT

- Rubber coated pins for fitting to front forks
- One simple fitting system included
- 2 position adjustment screws ensure security and stability

REAR

- Rubber coated L-cups for straight swing arms
- Forks for use with frame bobbins (bobbins sold separately)
- 2 position adjustment screws ensure security and stability

CODE	DESCRIPTION
OX281	Premium Paddock Stand - Rear
OX282	Premium Paddock Stand -Front
OF821F	Rear Stand - Spare L-Cups

BIG BLACK BIKE Paddock STANDS

For wheels up to 17"

The Oxford Big Black Bike Paddock Stand is exactly as its name suggests. Available as both front and rear stand. The front stand has universal lifting forks whilst the rear has universal L-Cups.

FEATURES

- Fully adjustable padded swing arm rests
- Robust construction using 32/35mmØ steel tube
- 4 chunky wheels for maximum stability

CODE	DESCRIPTION
SP822	Big black bike paddock stand - Front
SP821	Big black bike paddock stand - Rear

BOBBINS & FRAME FORKS

Paddock stand accessories

FEATURES

- Makes fitting a rear paddock stand to your bike much easier and quicker
- Does not mark the bike's swingarm
- The majority of bikes have pre-threaded holes in their swingarms to fit bobbins (consult your bike manufacturer for the bolt and thread size required for your bike)
- Some bikes have uneven swingarms, making the use of bobbins the only way to safely fit a rear paddock stand

OF828	Bobbins M8 (1.0 fine)
OX784	Fork Supports

NOTE: Frame Forks must be fitted to the rear paddock stand before bobbins can be used.

SPINNERS

Rotating paddock stand accessories

Bobbins make fitting a rear paddock stand to your bike much easier and quicker. Does not mark a bikes swingarm. The majority of bikes have pre-threaded holes in their swingarms to fit bobbins (consult your bike manufacturer for the bolt and thread size required for your bike). Some bikes have uneven swingarms, making the use of bobbins the only way to safely fit the rear paddock stand.

FEATURES

- Lightweight anodised alloy bobbin with bearing
- Stainless steel bearing provides a smooth transition making Spinners the easiest / safest way to use a paddock stand
- Quick simple installation onto the frame / swing arm

BIKE DOCK

For wheels up to 22"

The Bike Dock secures the front wheel of a motorcycle to keep it upright when being stored or being transported.

FEATURES

- Multi-position pivoting head to provide the best support for the front wheel
- Hoop to attach optional lock (sold separately)
- Dock can be used free standing, screwed to the floor or to trailer
- Slot for attaching additional wheel support strap (not included)
- Heavy duty rubber feet
- Robust steel construction
- Fully adjustable cradle to fit most motorcycles with 12"-22" front wheel

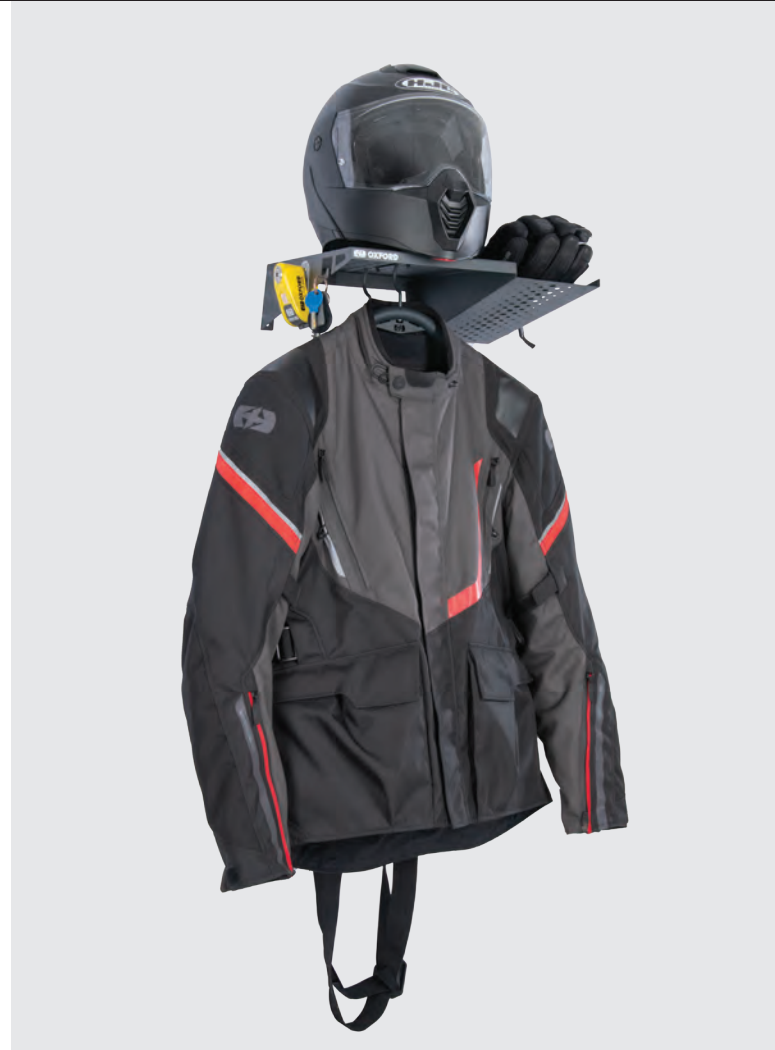

CODE	DESCRIPTION
OX781	Bike Dock

NEW ZERO-G GEAR TIDY

Motorcycle equipment storage system

FEATURES

- Ventilated helmet shelf
- Ventilated glove shelf
- Disc lock mount
- Hanger slots
- Key/ Carabiner hooks
- Fittings included

CODE	DESCRIPTION
OX693	Gear Tidy

NEW ZERO-G HANGER

Heavy duty motorcycle gear hanger

FEATURES

- 360° rotating hook
- Robust steel construction
- Max load: 25kg
- Trousers hooks

CODE	DESCRIPTION
OX694	Heavy Duty Hanger

NEW FUEL FLASK

Emergency fuel carrier

FEATURES

- Leakproof seal
- Lightweight aluminium
- Tough and durable construction
- 1.5L: 320 x 88mm
- 1L: 270 x 80mm
- Use with Bottle Stash

CODE	DESCRIPTION
OX835	Fuel Flask - 1L
OX834	Fuel Flask - 1.5L

NEW BOTTLE STASH

Drinks and fuel bottle carrier

FEATURES

- 4 fixing straps
- Molle webbing mounting points
- Durable 600D polyester construction
- Max bottle size: 88mmø x 320mm

CODE	DESCRIPTION
OX837	Bottle stash

NEW AQUA FLASK

Insulated water bottle

FEATURES

- Insulation to keep contents hot or cold
- 1L capacity
- Leakproof seal
- Stainless steel construction
- Use with Bottle Stash

CODE	DESCRIPTION
OX836	Aqua 1.0L insulated flask

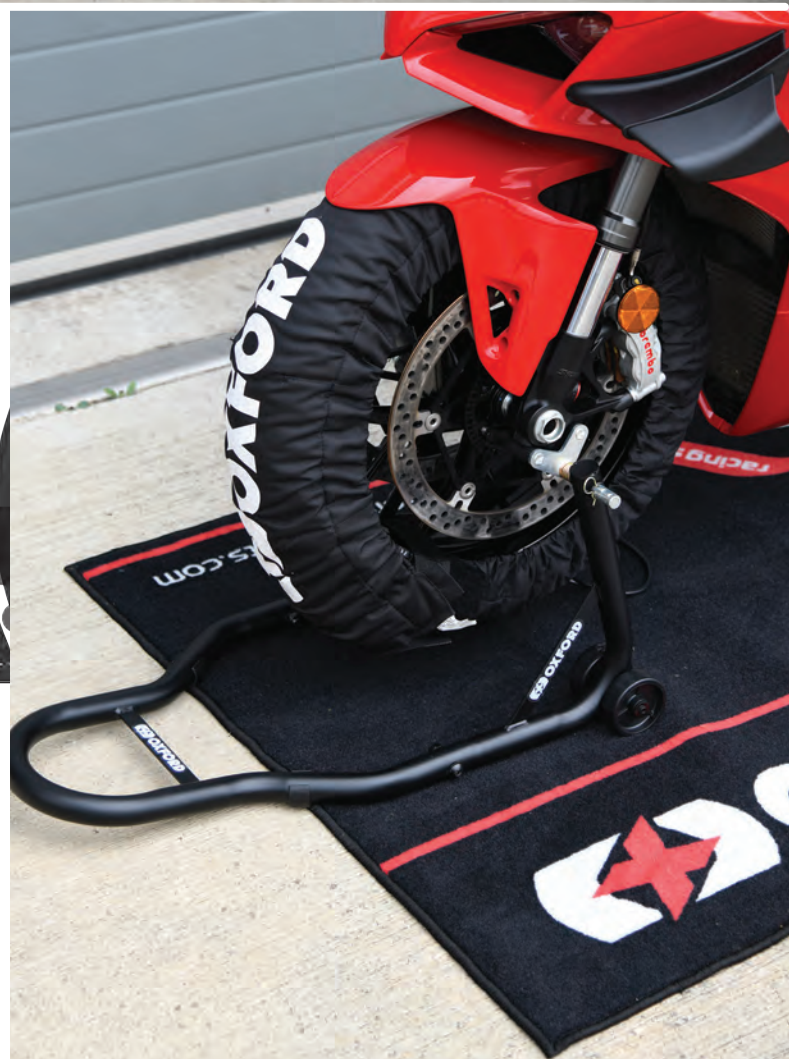

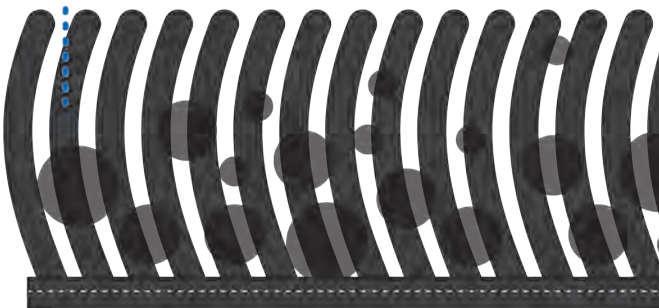

WORKSHOP MATS

BIKE WASH

An ALL-PURPOSE CLEANER specially formulated to remove dirt and grime quickly, resulting in a BRIGHT AND SPARKLING FINISH to your bike.

FEATURES

- Mint Bike Wash is a high performance formulation
- Foaming trigger enables easy and gentle removal of dirt and grime
- Safe on paintwork, metal surfaces, plastics, rubber and carbon fibre
- Features a clean, mint scent

GREAT FOR... EVERYWHERE!

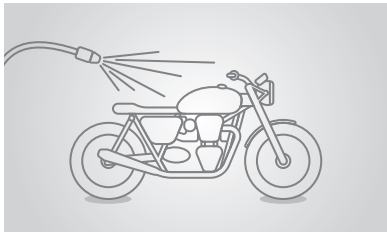

- Paintwork
- Engine casings
- Metal work
- Wheels
- Forks
- Etc.

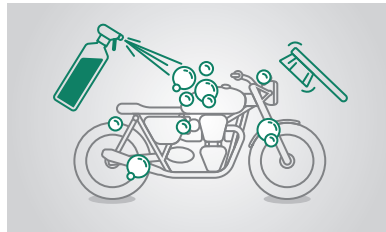

1 LITRE CODE:OC100

5 LITRE CODE:OC101FB

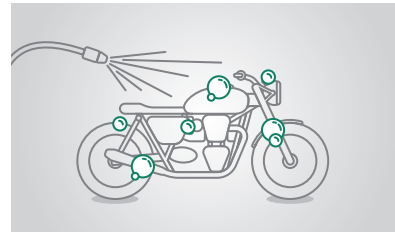

QUICK AND EASY TO USE!

1. Rinse the bike thoroughly before applying Mint Bike Wash.

2. Spray on Mint Bike Wash and leave for several minutes. Use an Oxford cleaning brush to ensure an even coverage. Agitate areas with heavy dirt deposits.

3. Rinse thoroughly with clean water.

Bottle can be attached to a pressure washer or used with the trigger provided

CHAIN CLEANER

A POWERFUL FORMULATION which is extremely effective at dissolving and washing away contaminated chain lube and the combination of oil and dirt which has dried on over time. An emulsifying formula allows the product to be washed off after use.

FEATURES

- Easy to use. High power delivery ensures dirt and grime is removed quickly
- Safe to use on chains, swing arms, O, X and Z ring chains
- Regular cleaning of your chain will extend the life of your chain and maintain performance

GREAT FOR...

- Chains
- Sprockets
- O, X, Z rings

500ml

CODE:OC200

BIKE DEGREASER

A ROBUST FORMULATION which is extremely effective at dissolving and washing away grease and oily residues that have dried and set over time. SLOW-EVAPORATING solvents remain on the surface for longer, in order to dissolve more dirt; more effective if allowed to soak for a few minutes before being wiped off. An emulsifying formula allows the product to be washed off after use.

FEATURES

- Mint Degreaser removes built up oil and grease
- Allow moving parts to move freely
- Deep penetrating action

GREAT FOR...

- Engine blocks
- Rear pegs
- Stands

500ml

CODE:OC201

BRAKE CLEANER

SPECIALLY FORMULATED to remove any build-up of brake dust and dirt and leave a decontaminated surface for the perfect functioning of your brakes. Acetone-free and safe on rubber components.

FEATURES

- Mint Brake Cleaner is easy to use, high power delivery removes brake dust and brake fluid
- Rapid working formula leaves the brakes clean in minutes

GREAT FOR...

- Disc brakes
- Brake calipers
- Clutches

500ml

CODE:OC202

DRY WEATHER LUBE

SPECIALLY FORMULATED with selected oils, PTFE and fewer solvents to generate a high film-forming capability; this works to produce a stronger and more robust film, reducing 'fling' and improving chain protection in dry and dusty conditions. PTFE content fills the gaps between moving parts to reduce dirt ingress.

FEATURES

- Ideal for dry and dusty conditions
- Special formulation with PTFE helps prevent dirt and grime adherence

GREAT FOR...

- Chains
- Sprockets
- O, X, Z rings

500ml

CODE:OC205

WET WEATHER LUBE

SPECIALLY FORMULATED with a high anti-corrosion content and a film forming wax with a resin binder to improve durability and performance in very wet conditions. PTFE content fills the gaps between moving parts to reduce dirt ingress.

FEATURES

- Mint Wet Weather Lube has been developed to deal with the most inclement weather conditions
- Long lasting protection with PTFE

GREAT FOR...

- Chains
- Sprockets
- O, X, Z rings

500ml

CODE:OC206

ALL WEATHER LUBE

SPECIALLY FORMULATED viscous lubricant with corrosion inhibiting additives to create a tenacious film, which extends the maintenance intervals and increases the life of your chain. PTFE content fills the gaps between moving parts to reduce dirt ingress.

FEATURES

- Mint All Weather Lube is ideal for extended journeys
- Special formulation with anti-fling properties
- Long lasting protection and lubrication with PTFE

GREAT FOR...

- Chains
- Sprockets
- O, X, Z rings

500ml

CODE:OC207

SILICONE DETAILER

AN INNOVATIVE BLEND of oils which hides minor blemishes on surfaces, reducing the appearance of small cracks and scratches. Quick and easy to apply, it also provides a protective layer to surfaces and reduces the possibility of finger prints and other smudges appearing.

FEATURES

- Easy application
- Reduced friction on moving parts
- Helps reduce cleaning
- Stays looking clean for longer

GREAT FOR...

- Paintwork
- Petrol tanks
- Carbon fibre
- Fairings

500ml

CODE:OC203

GENERAL PROTECTANT

A HIGHLY EFFECTIVE general purpose protectant with strong film forming properties, which create a protective coating to prevent moisture ingress and damage on all types of components. Particularly suitable for overwintering and long term storage to help maintain condition of all components, including moving parts, metal fasteners, rubber seals and electronics.

FEATURES

- Mint Protectant is ideal for repelling moisture
- Enhances protection against dirt and grime
- Light wax coating ensures longevity of protection

GREAT FOR...

- Springs
- Fork stanchions
- Rust prone areas

500ml

CODE:OC204

HELMET CARE KIT

Everything you need to maintain the cleanliness and functionality of your helmet and visor. Comes with a handy EVA foam pouch for convenient motorcycle storage.

- Helmet Sanitiser (100ml)
- Anti-Fog Spray (50ml)
- Helmet Cleaner (50ml)
- Microfibre cloth
- EVA foam pouch

GREAT FOR...

- On-the-go general helmet care

CODE:OC303

HELMET SANITISER

Formulated specifically to clean and safely sanitise the interior fabric on helmets. It can also be used on boots, gloves and other safety items that are worn for extended periods. REFRESHES AND SANITISES in one operation.

- Easily and gently sanitises helmet liners
- Safe on all materials
- Features a special foaming applicator
- Contains mild, tested biocide
- Can also be used on gloves, shoes and boots

GREAT FOR...

- Internal helmet linings
- Gloves, shoes and boots

100ml

CODE:OC305

200ml

CODE:OC300

ANTI-FOG SPRAY

A specially developed, easy-to-use anti-fog fluid for visors and goggle lenses. This formulation provides a natural STREAK-FREE lustre in seconds, leaving a pleasant, light fragrance with no sticky residues.

- Effective and suitable for most surfaces
- No residual dust or streaks
- Cleans and polishes in one application
- Non-sticky

GREAT FOR...

- Visors
- All shell types

50ml

CODE:OC304

250ml

CODE:OC301

HELMET CLEANER

A unique formulation specifically designed to clean helmets and visors without streaking. When applied with a microfibre cloth this product leaves no residue and a SMEAR-FREE surface even in direct sunlight.

- Removes road dirt, dead insects and greasy residue
- Unique formulation
- Easy application
- Quick drying
- Low hazard formulation, safe on all surfaces

GREAT FOR...

- Ensuring clear vision
- Debugging after a summer ride

50ml

CODE:OC306

250ml

CODE:OC302

WAX REPROOFER

Stain free, silicone free proofer for wax cotton garments. Quickly and conveniently restore your wax jacket's waterproofing.

- Suitable for all colours of waxed cotton
- Easy to use
- Quick top-up application
- PFC free

GREAT FOR...

- Revitalising waxed cotton garments

250ml

CODE:OC400

VISORMATE

A unique formulation specifically designed to clean visors without streaking.

- Pump action bottle
- Cleaning fluid included
- Integrated sponge
- Integrated visor wipe
- Refillable Bottle

GREAT FOR...

- Maintaining a clear view through your visor.

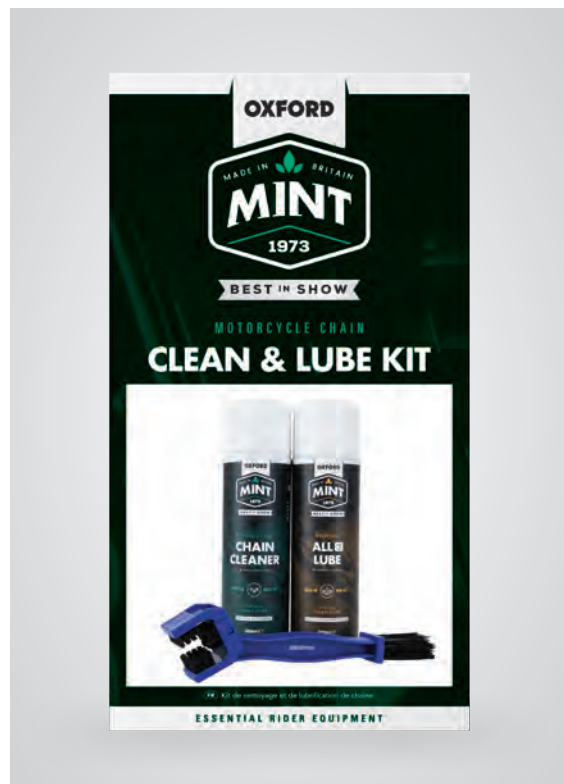

50ml

CODE:OC307

CHAIN CLEAN & LUBE KIT

CONTAINS

- Chain cleaner (OC200)
- All weather lube (OC207)
- Chain brush (OX731)

CODE:OC500

TYRE CARE

TYRE CARE

TYRE WARMERS

3 level tyre warmers

Designed to get the best out of your track and racing days. Pre-heating prolongs the life of the tyres and, more importantly improves tyre performance.

FEATURES

- Automatic thermostat controls temperature to 60, 80 or 95°C when fitted to the tyres
- Sold as a pair
- Front fits tyres from: 120/70 x 17"
- Rear fits tyres up to: 200/55 x 17"
- LCD temperature display
- LED heat indicator
- Rolls up neatly into carry bag provided
- Clear label pocket to display tyre information
- Made from heat resistant material, reinforced with nylon, with hook-and-loop fasteners for quick and easy attachment and removal
- Power consumption: Front 400W, Rear 600W, per pair 1000W
- CE approved

CODE	DESCRIPTION
OX673	Tyre Warmers LCD 3
OX673EU	Tyre Warmers LCD 3 EU Plug
OX673G	Tyre Warmer Temp Gauge

TYRE GAUGE PRO

Analogue pressure gauge

FEATURES

- Ø 2"/5cm Steel case and ring
- Tough acrylic window
- Holds the peak pressure reading
- Pressure bleeding button
- Long 14"/36cm flexible hose with 90° angled head
- Gauge unit protected in a rubber casing
- 0-60psi/0-4 bar for motorcycles, cars, caravans, etc

CODE	DESCRIPTION
OX750	Tyre Gauge Pro

DIGI GAUGE

Advanced digital pressure gauge

FEATURES

- Rotating dual valve system: Schrader and Presta
- Reads a choice of pressure scales: PSI/BAR/kPa/KG/CM2
- Pressure range: 0.20 to 11.03 BAR. 3 to 160 PSI. 20 to 1103 kPa
- Back-lit digital display for easy reading
- Pressure release valve
- Anti-shock case
- Flashlight included

CODE
OX751

AIR GAUGE

Digital pressure gauge

FEATURES

- Digital display
- Reads a choice of pressure scales: PSI/BAR/kPa/KG/CM2
- Fits Schrader valves
- Pressure range: 0 to 6.9 BAR. 0 to 100 PSI. 0 to 690 Kpa
- Automatic shut-off
- Includes 4 x valve caps

CODE
OX752

AIRTRACK GAUGE

Steel floor pump with gauge

FEATURES

- Twin head fits Presta & Schrader valves
- Includes adaptors for ball and inflatables
- 160PSI Max Pressure
- 630mm length
- Long air pipe for greater reach

CODE
PU850

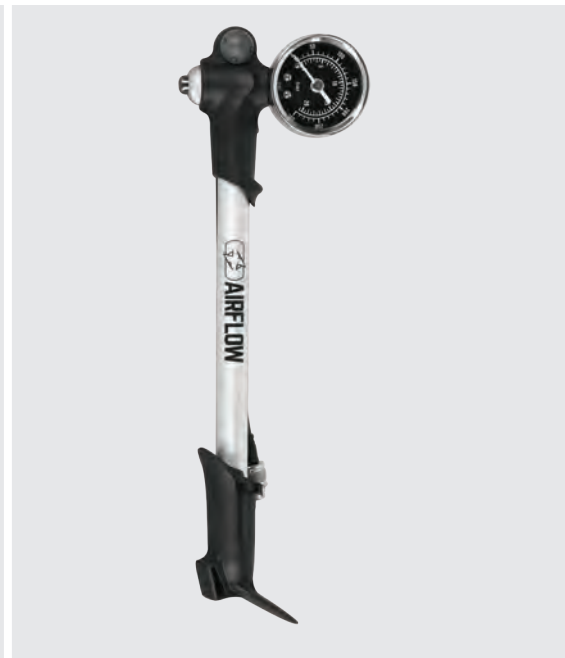

AIRTRACK

Steel floor pump

FEATURES

- Twin head fits Presta & Schrader valves
- Includes adaptors for ball and inflatables
- Long air pipe for greater reach
- 160PSI Max Pressure

CODE
PU851

AIRFLOW SHOCK

Shock pump with gauge

FEATURES

- Analogue pressure gauge
- 300 PSI Max Pressure
- Precision alloy barrel
- Pressure release button
- 6" pivoting hose

- Cut to fit any size
- Soft construction prevents abrasion
- Ideal for protecting paintwork when using luggage
- Minimises object movement
- Size: 600mm x 900mm

CODE
OX653

A close-up, low-key photograph of a motorcycle's front lighting assembly. The main focus is a large, round, clear lens headlight with three distinct LED elements visible inside. To the left of the main headlight, a horizontal LED strip is illuminated with a warm orange glow. Below the main headlight, a small, brown leather saddlebag is attached to the frame. The background is dark, highlighting the metallic and plastic components of the bike's front end. A blue rectangular box with white text is overlaid on the right side of the image.

LIGHTING

SEQUENTIAL INDICATORS

The ultimate trick upgrade. The indicator dynamically sweeps across from the inside to the outside of the indicator strip, when activated. A universal fit makes these a must-have for any bike

HOTGRIPS™

THE ORIGINAL. THE BEST.

TOASTY TOASTY

"If you are tired of numb hands on cold mornings, this is what you need; the solution to all your cold weather problems."

SIMPLY THE BEST

"I already have a set of these on my big bike so no-brainer for my small bike. Fast heating with a good variety of temperature settings. Easy to install and well made. The best heated grips available in my opinion."

EXCELLENT PRODUCT

"Second pair of Oxford grips I have bought - now fitted to two of my bikes. They are hotter than the factory fitted grips on my BMW with a wider range of settings. Wouldn't have a bike without them now."

WHAT'S IN THE BOX?

1 x Heat Controller

2 x Hotgrips™

1 x Mounting Bracket

Wiring Loom

Cable Ties, Grip Glue & Fitting instructions

/OxfordproductsLtd

SIMPLE INSTALLATION

Head to our YouTube to check out our Hotgrips™ installation video

HOTGRIPS™ EVO

A WORLD FIRST

The EVO HotGrips™ are a technological leap forward and will dramatically increase the enjoyment of winter riding.

These completely all-new HotGrips™ now feature thermistor technology in each grip, which allows them to heat up faster and then automatically regulates the exact surface temperature in accordance with the temperature that you set on the heat controller.

So no matter what the ambient temperature might be, your grips will always be at the temperature that you want, never too hot or too cold. The ATV model has thermistor control integrated into both the grip and the thumbwarmer.

Re-designed rubberised internals are easier to fit and more secure than conventional heated grips.

THERMISTOR CONTROLLED HEAT SETTINGS

NEW & UNIQUE thermistor technology auto-regulates temperature

Built into each HotGrip™ (and thumbwarmer for the ATV model) is a temperature measuring thermistor that provides feedback to the heat controller.

Set the desired temperature and the controller automatically monitors and maintains the precise temperature.

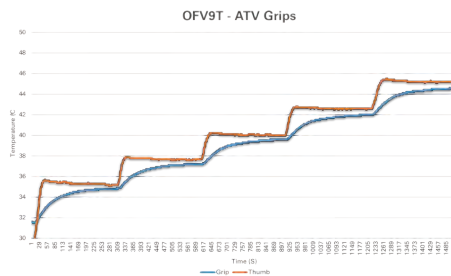

Heats up fast at full power until the temperature is achieved.

Precise Temperature Control

Choose from 5 precise temperature settings ranging from 35°C to 45°C. LED lights will indicate the temperature setting.

Intelligent Heat Setting Memory

This innovative function stores the previous heat setting and defaults to this at power-up, saving time when in regular use. Note: This function is only available if the heat controller is connected to the ignition.

Weatherproof Design

The intelligent heat controller uses a sealed-for-life welded case construction for long-term durability and weatherproofing. New weatherproof power connectors further protect your HotGrips™ against the elements.

Waterproof screw connectors - IP67 Rated

Battery Saving Mode

The Battery Saving Mode protects against flat batteries. If you forget to turn the switch off, it will do it for you!

Auto shut off

Simple Installation

HotGrips™ are designed as a replacement for the handlebar grips already fitted to the motorcycle/ATV. They will fit onto 7/8" (22mm) Ø handlebars. Through-moulded rubber gives a strong and reassuring glue bond to the handlebar.

Ergonomically engineered surface structures to optimise riding performance.

NEW motorcycle controller unit

NEW ATV controller unit

HOTGRIPS™ EVO ADVENTURE

Thicker rubber in areas of maximum wear; square tread pattern for vibration absorption; 5² block sided tread patterns for high levels of grip and feel; diamond tread pattern where maximum grip is required and a waffled area for finger-grip control. The grip length is 132mm but can be trimmed to 122mm if required and has open ends so that bar end weights can be fitted.

CODE
EL420

HOTGRIPS™ EVO TOURING

Ideal for comfortable long distance cruising. Thicker rubber in areas of maximum wear; rhombus tread pattern for vibration absorption; 5² block sided tread patterns for high levels of grip and feel; diamond tread pattern where maximum grip is required. The grip length is 120mm but can be trimmed to 110mm if required and has open ends so that bar end weights can be fitted.

CODE
EL421

WITH THUMBWARMER

HOTGRIPS™ EVO SPORTS

Soft, ultra-grippy diamond tread is inspired by race grips for comfort and feedback. The grip length is 123mm but can be trimmed to 114mm if required and has open ends so that bar end weights can be fitted.

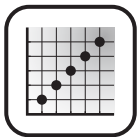

CODE
EL422

HOTGRIPS™ EVO ATV

Dual channel heat controller gives independent control for the grips and thumb-warmer. The grips have ergonomically engineered surface structures to optimize riding performance. Thicker rubber in areas of maximum wear; rhombus tread patterns for high levels of grip and feel; diamond tread pattern where maximum grip is required and a waffled area for finger-grip control. The grip length is 130mm but can be trimmed to 120mm and has open ends so that bar end weights can be fitted. Glue-less clamp fitting makes them easy to fit.

HANDLEBAR ACCESSORIES

ESSENTIAL HOTGRIPS™ COMMUTER

These Hotgrips™, although universal, have been designed to be compatible with motorcycles with smaller batteries and less powerful charging systems.

FEATURES

- Weather resistant heat controller, can reach up to 45°C
- Grip design fits 22mmØ handlebars and can be cut down in length if required (52mmWx30mmDx24mmH)
- 1-piece moulded construction ensures unrivalled performance and reliability
- Draws under 4A
- Zero back drain current
- Bracket and fitting included

CODE	DESCRIPTION
OF771	Hotgrips™ commuter

- 1 Moulded wiring arrangement is both durable & discreet
- 2 Soft, ultra-grippy rubber provides comfort & feedback
- 3 2 way rainproof switch with High/Low function

ESSENTIAL HOTGRIPS™ CRUISER

These Hotgrips™ have been designed specifically for motorcycles with 1" handlebars, typically cruisers.

FEATURES

- Ergonomically engineered grip surface structures.
- 1-piece moulded construction ensures unrivalled performance and reliability
- Draws under 4A
- Rainproof switch

CODE	DESCRIPTION
OF697	Cruiser hotgrips™

- 1 Moulded wiring arrangement is both durable & discreet
- 2 Chrome end cap can be used; or cut it off and use your own Bar End (additional dark chrome end caps included)
- 3 Ergonomic temperature control comes complete with mounting bracket
- 4 Soft, ultra-grippy rubber provides comfort and feedback

ESSENTIAL HOTGRIPS™ SCOOTER

These Hotgrips™ have been designed specifically for scooters and bikes with smaller batteries and less powerful charging systems. Ideal for commuting and city riding.

FEATURES

- Ergonomically engineered grip surface structures.
- 1-piece moulded construction ensures unrivalled performance and reliability
- Grip design fits the vast majority of bikes, but can be cut down in size if required
- Draws under 4A
- Rainproof switch
- 2 bar end caps included

CODE	DESCRIPTION
OF772	Hotgrips™ scooter

- 1 Moulded wiring arrangement is both durable & discreet

HANDLEBAR ACCESSORIES

PREMIUM LEVER GUARDS

Universal lever guards for brake and clutch

These lever guards protect your handlebar control levers from being engaged accidentally by very close contact with immovable objects (like other bikes on a track day). But they also supply a bit of racer style to your bike too. This concept can equally be applied to road riding, protecting your lever(s) from wing mirror strikes while filtering.

FEATURES

- Universal fitting
- Unique Oxford design
- Lightweight CNC alloy construction
- 12-18mm diameter expansion bushes
- Fits 22mm diameter handlebars
- Packing includes both throttle and clutch lever guards

Tip: You can convert these lever guards to full hand guards by adding the hand guards (OX702) which are available separately.

CODE	DESCRIPTION

OX700	Lever Guards
-------	--------------

OX702	Hand Guard Kit
-------	----------------

PREMIUM HAND GUARDS

Universal hand guards for brake and clutch

Beautifully created handguards to give protection to the rider's hands from stones, weather and general road debris. Adds the finishing touch to a bike that has no guards fitted.

FEATURES

- Universal fitting
- Unique Oxford design
- Lightweight CNC alloy construction
- 12-18mm diameter expansion bushes
- Fits 22mm diameter handlebars
- Packing includes both throttle and clutch lever guards

Tip: You can convert these hand guards to lever guards by adding the hand guards (OX701) which are available separately.

RACING LEVER GUARDS

Universal racing lever guards

Lever Guards were originally developed to help avoid the accidental engagement of the front brake lever during close wheel-to-wheel racing. This concept can equally be applied to road riding, protecting your lever(s) from wing mirror strikes while filtering.

FEATURES

- Universal fitting
- Fits all 22mm/ 7/8" handlebars using 12-18 expansion bolts
- Reinforced 'Delrin' acetal 100ST composite
- Suitable for race use
- Easy to install

CODE	DESCRIPTION
OX808	Left Hand - Clutch
OX809	Right Hand - Brake

RACE COMPATIBLE

LEVER GUARDS

Universal lever guards

Lever Guards were originally developed to help avoid the accidental engagement of the front brake lever during close wheel-to-wheel racing. This concept can equally be applied to road riding, protecting your lever(s) from wing mirror strikes while filtering.

HANDLEBAR ACCESSORIES

BAR END MUFFS

Muffs with bar end fitting system

These new Oxford Bar End muffs are a game-changer for commuters, re-designed and refined to offer incredible protection against the elements.

Our simple yet ingenious new bar end fixing method allows you to safely access controls without obstructing the full grip use - leaving enough room for winter gloves - and to be used in conjunction with Oxford HotGrips.

FEATURES

- Full weatherproof protection from a tough neoprene outer and bonded seams to keep hands warm and dry.
- Adjustable elasticated cuff for extra wind protection.
- Synthetic fleece upper lining for extra warmth.
- Fits handlebars up to 22mm diameter.
- Reflective detailing for extra visibility.
- Quick and simple installation using either the universal bar end fitment provided OR the existing 6mm or 8mm bolt (if you have an integral handlebar thread).

CODE	DESCRIPTION
OX393	Bar End Muffs
OX396SP	Spare handlebar fitting kit - single muff

HANDLEBAR ACCESSORIES

SUPER MUFFS

Handlebar muffs for motorcycles

Oxford Super Muffs, as used in the 'Long Way Up' expedition, will keep your hands protected from the elements on any journey - short or long.

FEATURES

- Warm, waterproof and windproof for total hand protection
- Special 3D design for efficient and non-snag operation of control levers
- Thermal insulation
- Pre-formed opening for easy access
- 1500 denier polyester fabric for durability
- Reflective piping for increased visibility to other road users
- Universal design that fits the majority of motorcycles

CODE	DESCRIPTION

CLIQR

MOUNT YOUR DEVICE, ANYWHERE

VIEW FULL RANGE AT
OXFORDCLIQR.COM

CLIQR

OXFORD'S CLIQR IS THE ULTIMATE WAY TO SECURELY MOUNT YOUR DEVICE

CLIQR uses a dual-locking, fail-safe mechanism to mount almost any device in the most convenient position for you. Simply stick the CLIQR Device Adaptor onto the back of your device and CLIQR it into the mount of your choice, in the orientation that suits you.

Shared Base Mount

The shared base mount is the core of the CLIQR range, providing a secure and quick mounting system, allowing the phone to be in either landscape or portrait orientation. The Dual locking, fail-safe mechanism keeps the phone secure over rough terrain and the simplicity of the mounting system means it can be operated easily with just one hand.

Universal Adaptor With VHB 3M™ Tape

Designed to be attached to the user's phone or phone case, removing the need for a specific bulky phone case with an integrated mounting system.

Mounting option

The CLIQR range provides the best and most versatile mount solutions for any activity.

THE CLIQR HAS BEEN VIGOROUSLY TESTED TO ENSURE YOUR DEVICE IS SECURE, WHEREVER YOU TAKE IT.

DON'T JUST TAKE OUR WORD FOR IT...

CLIQR is extensively tested both in-house and via external bodies to ensure you that your device is safe whilst mounted.

To see the results of our testing, check out www.oxfordcliqr.com to see the following:

3M Technical Data
FEA Simulation
Tensile testing
Vibration testing

Simple to lock and remove with 1 hand

Vertical or horizontal mounting options.

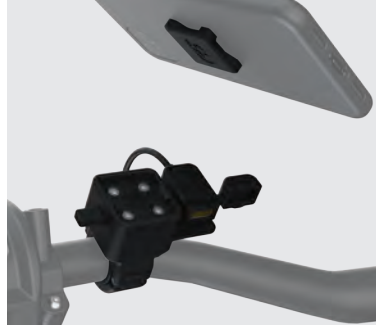

NEW USB MOUNT

The CLIQR USB Handlebar Mount allows you to mount your device beside your controls and charge whilst on the move.

INCLUDES

- 1 x USB handlebar mount
- 2 x Device adaptors
- 1 x Silicone insert (22 - 22.5mm stem/bar)
- 1 x Alcohol wipe

CODE	DESCRIPTION

A blue and yellow Suzuki motorcycle is positioned inside the cargo area of a van. The motorcycle is secured with grey ratchet straps. The van's interior walls are lined with light-colored wood paneling. The van's rear door is open, and the exterior is a light blue color. The text "TRAVEL & TRANSPORT" is overlaid in white on a blue background across the middle of the image. The Suzuki logo is visible on the motorcycle's fairings.

TRAVEL & TRANSPORT

BAR STRAP KIT

Handlebar tie-down harness & straps

FEATURES

- Integrated cam buckle straps eliminate the need for conventional strapping
- Wide cam buckle straps designed for reliability over and above ratchet straps
- High tensile carabiner hooks guarantee fast and secure fitting
- Padded shoulder strap
- Hand loops fitted to allow maximum tensioning
- Soft fleece pads to prevent scratching of paintwork

CODE
OX747

BAR STRAP HARNESS

Handlebar tie-down harness

FEATURES

- Makes attaching bikes to trailers easier and safer
- Suitable for most motorcycles, including Moto-X, road bikes and ATV's
- Tough flag stitched webbing provides strength, thick fleece prevents paint wear
- 4.5cm wide nylon webbing
- Use in conjunction with S-Hook Straps (OX742)

CODE
OX746

RATCHET HOOK STRAPS

Heavy duty ratchet straps

FEATURES

- Safe working load: 196kg
- 25mm width Nylon webbing
- Coated S hooks
- Extra secure and safe fixing loop
- Extension loops eliminates direct contact between hook and bike

CODE
OX744

S-HOOK STRAPS

Self locking tie-down S-hook straps

FEATURES

- 2 x 2m top quality 1" nylon webbing
- Safe working load: 105kg
- Rubber coated S-Hooks
- Extra fixing loops to protect paintwork

CODE

OX743

RAMP

Lightweight aluminium loading ramp

FEATURES

- Designed for use with bikes up to 340kg
- Wide design is ideal for use by 1 person
- Folding construction for easy storage
- Hook & loop strap keeps ramp safely closed whilst carrying
- Can hook onto a 13mm / 1/2" bar on the tail of pick-up truck
- PVC coated resting forks to avoid scratching vehicle
- Includes webbing strap to hold ramp to vehicle
- Dimensions: 2.1m / 7ft long x 27.5cm / 11" wide

Save your bike, save your thigh. Buy a proper ramp, like this Oxford one. It folds, taking up less space in your van/garage, it has a nice curve so you don't drag your undercarriage, and it has grippy 'fingers' at the end to prevent slippage.

LUGGAGE

IN THE BEGINNING WAS THE TOP BOX

Oxford's very first product back in 1973 was a top box... tough, secure, watertight, no-nonsense. Today, our luggage range is huge, varied and endlessly versatile, but remains true to the simple charms of that first top box. With shapes and styles to suit all types of motorcycle, we excel in producing well thought-out, reliable kit and really do have a solution for carrying all of your kit - on and off the bike.

ALWAYS DEVELOPING

Motorcycle luggage exists in a harsh environment, attacked at high speeds by all weather conditions. It must be made from durable, weatherproof material and have lots of useful features. It needs to be adjustable, so that it can be fitted to a wide variety of machines. It also needs to offer decent carrying capacity and to look good on the bike.

Oxford's luggage is always developing; every year we hunt down the latest technology, innovate new solutions and build more functionality into our designs. From humble top box beginnings, Oxford has become the world's leading soft motorcycle luggage brand. Explore our range, then explore with us.

Buy a QR tankbag or upgrade your existing tankbag with a compatible QR base

STEP 2

Buy and fit the QR tank ring adaptor which is compatible with your motorcycle

STEP 3

Fit bag by clicking into place

IMPORTANT INFO:

- Because we ride bikes we understand that motorcycle luggage needs to be adjustable, so that it can be fitted to a wide variety of machines and must be made from durable, weatherproof material. It also needs to offer decent carrying capacity and to look good. We are never complacent and every year we build more features into our design. All this explains why we are today a successful global motorcycle luggage brand.
- OXFORD LIFETIME LUGGAGE is designed by motorcyclists in the UK. We are so confident of its quality and durability that we guarantee it against faulty manufacture or materials for life! The Lifetime Guarantee does not, however, extend to rain covers, buckles and zip tags, which are covered under our usual warranty. Nor does it insure against reasonable wear and tear or failure to properly care for/maintain the product.
- Read the user recommendations carefully before use to enjoy this luggage safely and to its full capacity.
- If you need advice on which bags are best suited to your riding needs, please don't hesitate to call our customer services team on 01993 862 300.

AQUA

WEATHERPROOF BAGS

Oxford's Aqua bags are one of the easiest ways to get your gear from A to B on a motorcycle, safe and dry. They are made from a tough PVC tarpaulin, which is welded to form waterproof seams. When straps are added to perform essential functions (such as securing the bag onto a motorcycle), Oxford uses innovative construction techniques to further reinforce the bag whilst ensuring complete waterproofing.

The latest generation of Oxford's acclaimed Aqua luggage now offers a choice of five useful tail bag sizes - from commuter 8L through to 'epic voyage' 70-litre versions - plus a range of backpacks and tank bags

"The middle sized of Oxford's Aqua packs is great value and arguably the most practical." AQUA-T 50

Ease of fitting: 4
Stability: 5
Loading: 4
Waterproofing: 5

RIDE

"Swallows up your weekend gear...
...It's a great bit of kit." AQUA-T 30

Tester: Alison Silcox
Time tested: 700 miles

S-SERIES

SEMI-RIGID LUGGAGE

Oxford's new S-Series motorcycle luggage combines tough construction with clean styling and quick-release convenience.

You can enjoy the benefits of both hard and soft luggage with Oxford's latest innovation.

Soft-touch materials are formed into a rigid construction using advanced vac-forming processes. This creates stylish, wipe-clean surfaces and crisp shapes which complement the lines of the motorcycle, yet you retain the easy-to-live-with qualities of soft bags.

The well-organised storage compartments are easy to access through weather-resistant zips and all bags come with rapid attachment/detachment systems.

TANK AND TAIL BAG FEATURES

R-SERIES

LUGGAGE

Oxford's Lifetime Luggage is the jewel in its crown, benefiting from 20+ years of passionate development since its launch in 1997.

Most bags look roughly the same from the outside, differentiated only by the styling, number of pockets and a few handy features.

The difference between a good bag and a GREAT bag is what you don't see at first glance; the material composition, construction methods, waterproofing systems, safety mechanisms, tried and tested componentry and built-in real-world usability.

You don't need to know what Oxford's test laboratory has specified, amongst other things: flag-stitched stress points; taped waterproof liners; innovative and over-engineered security straps; tough outer materials to battle the elements; soft touch-point materials to protect your bike; bright interiors for better content visibility; self-healing zippers; comprehensive user guidelines.

You'll carry on not needing to know for years and years... which is why Oxford Lifetime Luggage comes with an unparalleled Lifetime Guarantee.

HERITAGE

OLD WORLD STYLING, MODERN USABILITY

This vintage-styled waxed poly cotton luggage uses traditional materials and manufacturing techniques to recall a time when people worked and played outdoors, come rain or shine. But hidden beneath the old-world look is a hidden layer of modern technology, to offer a user experience to match today's demanding expectations.

The bags' key material is a dry waxed polycotton, a modern take on the traditional sail cloth which found its way into the clothing which sailors wore to protect themselves from the salt water and wet weather. The dry wax application is applied to all outer materials including the straps and has the very real benefit of not coming off on your hands when moving, fitting and using the luggage.

Respectful of the material's heritage, Oxford's designers have employed traditional methods to assemble the bags. For example, pockets are pleated in order to lie flat when empty, but provide space to expand when full; flag stitches secure all the straps and strapping points to the main structure of the bag; the roll top closure is both traditional and the best way to seal the bags against rain.

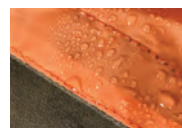

Inside the bags, however, you will find a very modern removable waterproof liner which uses taped seams to guarantee that the contents remain dry, even when the outer material has been drenched.

Similarly, the luggage employs Oxford's most up-to-date fitting system to ensure that it can be secured to the bike safely, with all necessary fittings supplied.

The result is a wholly user-friendly product which does the job whilst looking the part.

FEATURES

- Waxed Polycotton outers
- Water resistant roll top closures
- Removable waterproof liners
- Easy grab carry handles

Khaki - Orange Liner

Black - Red Liner

BACKPACK

30L wax polycotton backpack

LUGGAGE

F1

LUGGAGE

Oxford's F1 luggage provides an economical alternative to the Lifetime range, with all the essential features and a few more besides.

The bags retain all Oxford's approved construction methods, waterproofing systems and safety mechanisms in a wide range of styles and sizes to suit most bikes. The range also boasts a unique feature...

Five colour swatches are provided for you to colour-match to your bike; simply insert your chosen colour into the windows provided!

5 Coloured inserts included with every bag. Simply slide the swatch into the window.
