

2022

OUR PASSION FROM WITHIN

2022

OUR PASSION FROM WITHIN

After a pandemic 2021 still, first of all we want to apologize for the delays in the deliveries of a good number of references in our catalog, as a result of the shortages of raw materials and difficulties in the international shipping which are well known. We hope that by the beginning of 2022, the situation will normalize and we can gradually recover the quality of our service. To highlight in this catalog, is the incorporation of a Custom-Cruiser product line of semi-fairings and engine protectors of our own design and manufacture.

We are faithful to the technical collaboration in MOTO GP and SUPERBIKES with HRC (MOTO GP) and KRT (SUPERBIKES) teams, testing new materials, shapes and designs that are already being applied in the products of this new catalog. From here, we support both teams with all our technology, so that they give us a new world crown to add to our list of honors in 2021-2022, just as Jonathan Rea did for 2020 SUPERBIKES.

In this new catalog we have been forced, due to volume, reliability and updating issues to restrict the number of application charts and support their consultation through our website.

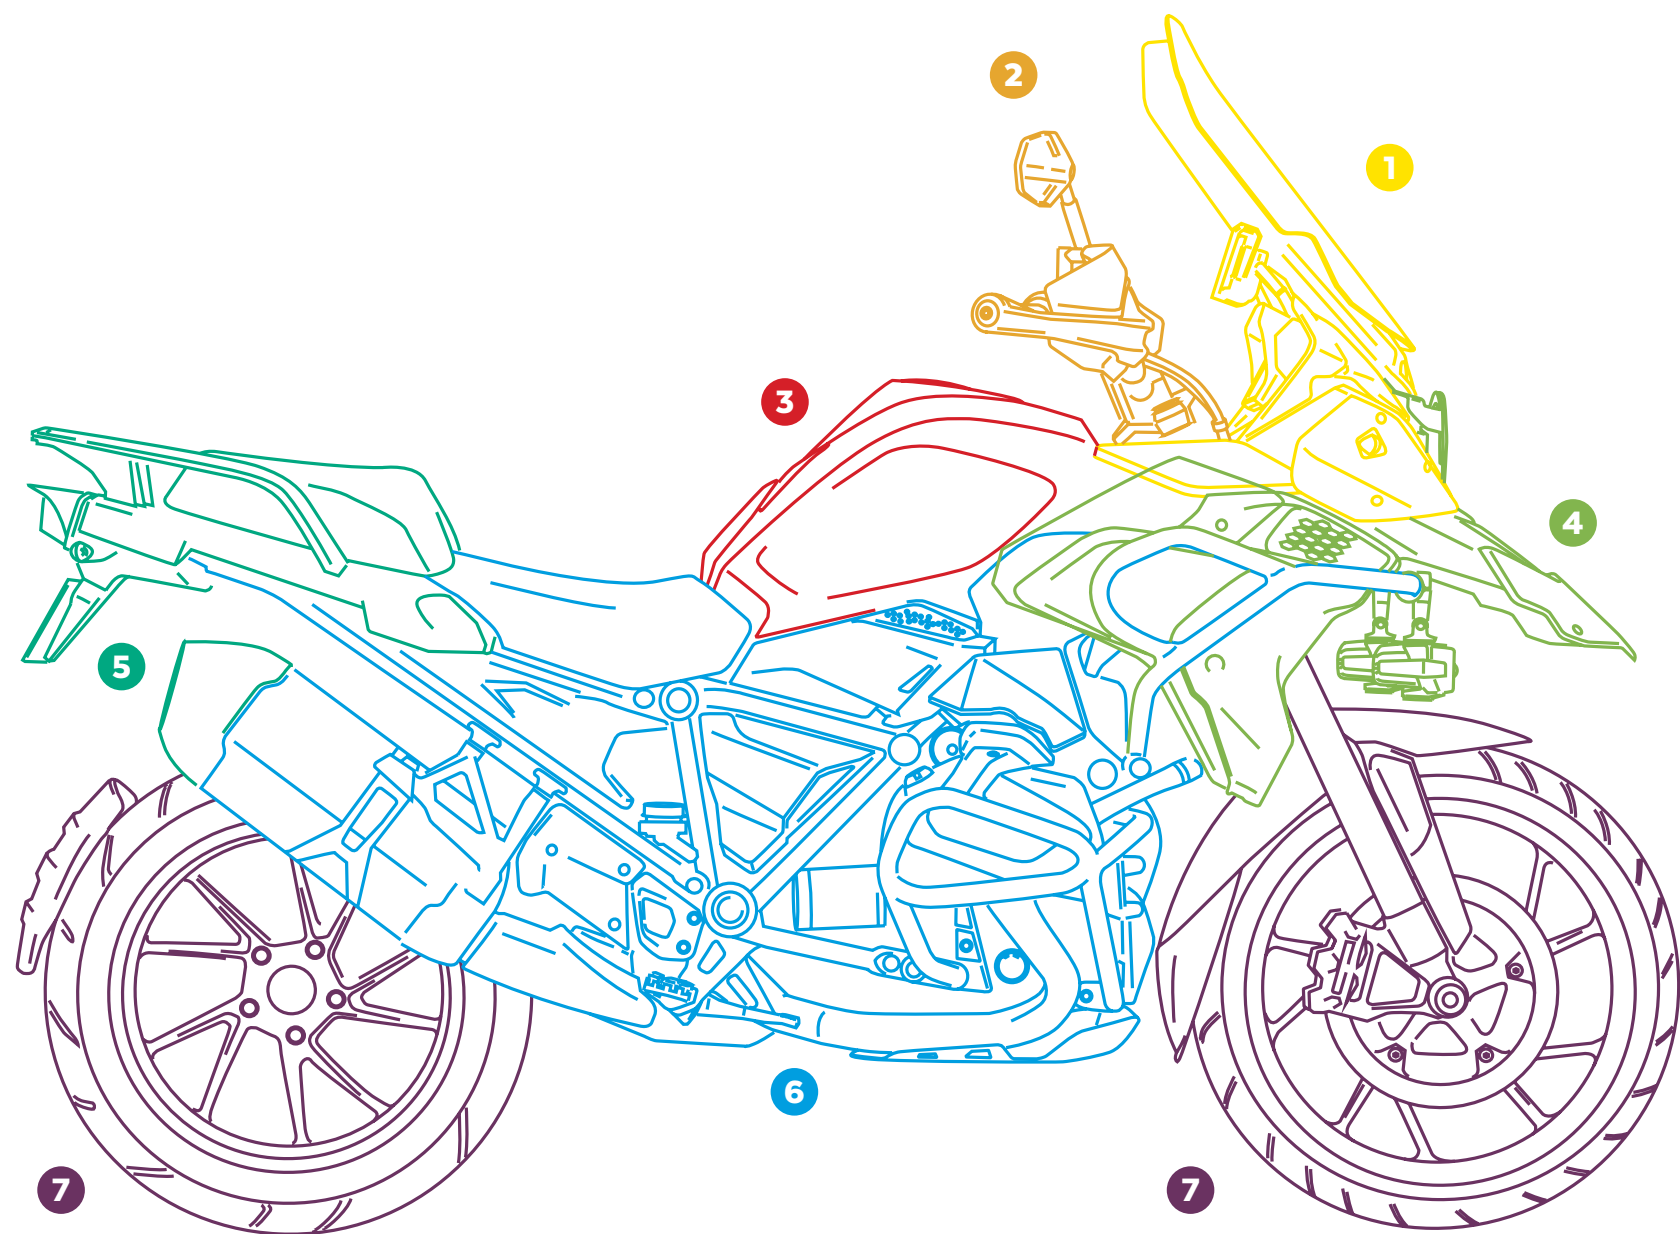

We highlight the following 2022 news that you can find in the catalog:

- Extension of the range of **GP and Naked frontal spoilers** (pages 43 and 49).
- **Upper front area:** Mito universal windshield (page 140), Off-road semi-fairing (page 105), Vespa GTS windshield (page 196) and the new 2.0 multi-adjustable visors (page 117).
- **Handlebar area:** Sport and Speed barend weights (page 271 and 273) and Fold and Z2 rearview mirrors (page 281).
- **Middle front zone:** Fun sequential indicator (page 413) and Hi-Beam 2.0 fog lamps (page 401).
- **Chassis-engine area:** Frame Sliders Pro 2.0 (page 517), Off-road Footpegs (page 493), Enduro Footpegs 2.0 and Trail 2.0 (page 465).
- **Rear area:** Angle license plate lighting group (page 448), Supports for specific delivery trunks for different models of scooters (page 631).
- **Deposit area:** We have started a collaboration with MARC MÁRQUEZ selecting us as their official manufacturer of tankpads with his logos (page 349).

For one more year, we appreciate the trust you place in the brand, which encourages us to continue pushing to keep this catalog up to date, year after year and wishing to put an end to COVID19.

Stay safe,

ANTI-WHEELIE

ANTI SHIMMIE

More stability on straights.

DOWNFORCE

More composure when braking.

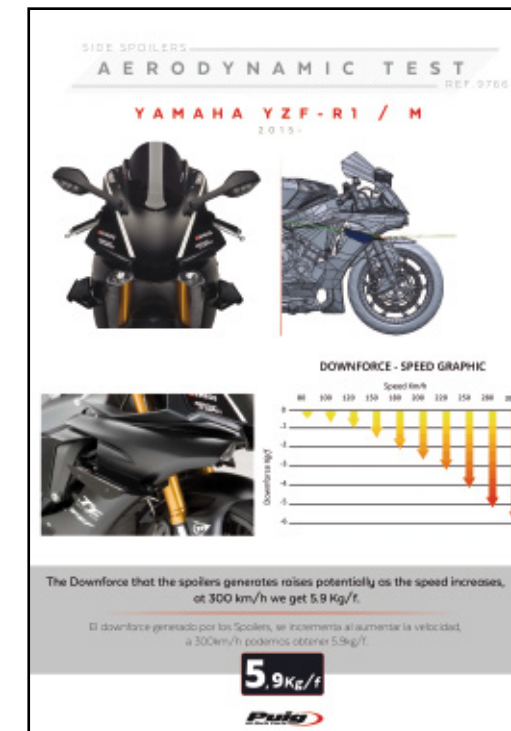

STABILITY

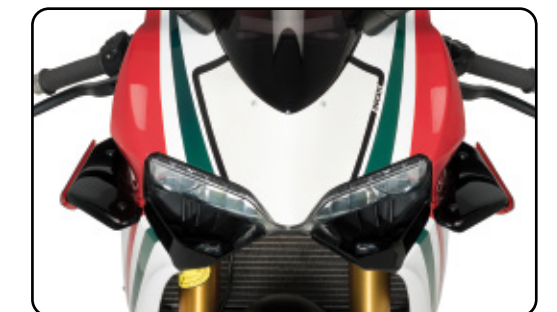

More stability when changing direction.

REF. 3162V

Aerodynamic test supplied along most of our spoilers.

They consist of:

- Set of spoilers made of 4 mm. thick CN High-Impact acrylic. Always in black.
- Set of deflectors available in colors.

Puig's Downforce Sport spoilers have been developed thanks to the experience and tests carried out by the Kawasaki Racing team on the WorldSBK championship circuits. Get the ultimate racing touch and improve the cornering of your motorcycle with these Downforce Sport spoilers.

ANTI-WHEELIE

ANTI SHIMMIE

More stability on straights.

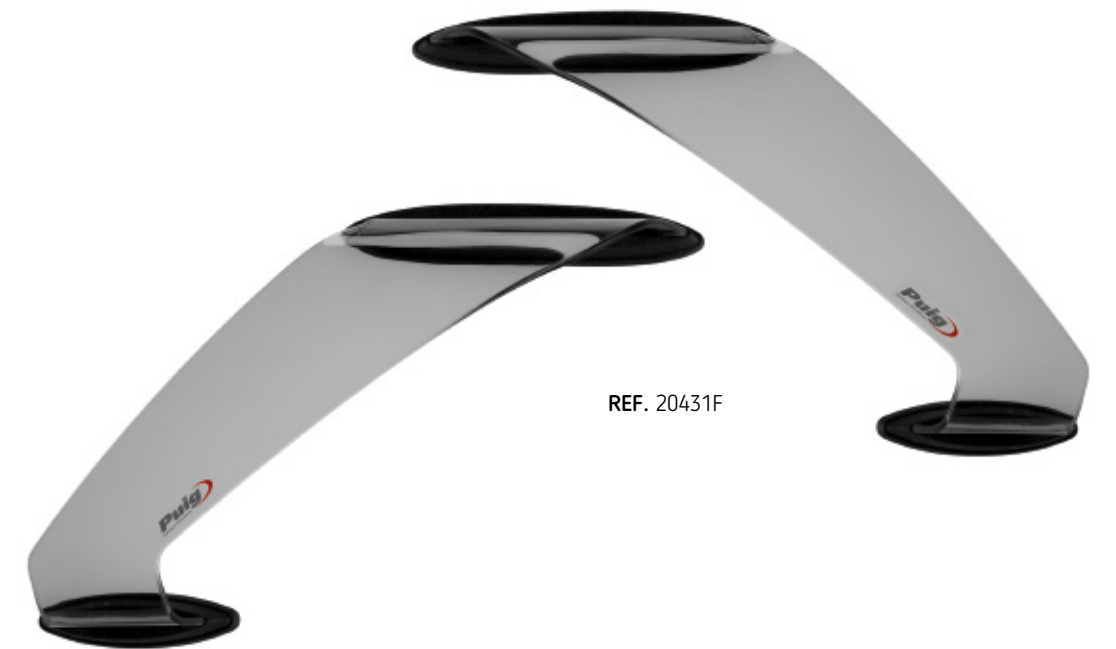

DOWNFORCE

More composure when braking.

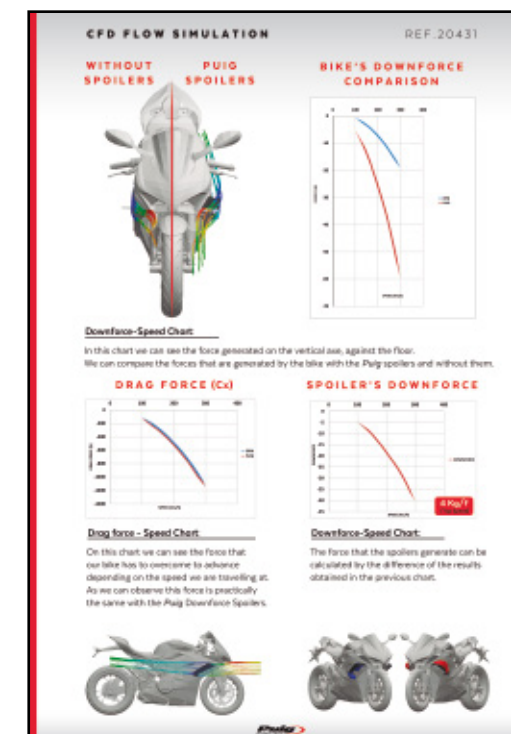

STABILITY

More stability when changing direction.

REF. 20431F

Aerodynamic test supplied along most of our spoilers.

They are made up of two elements:

- Supports injected in flexible black plastic that adapt perfectly to the fairing of your motorcycle by means of a 3M dual lock adhesive, strong, resistant and durable, but that can be removed and does not damage or require holes in your fairing.
- Spoiler in closed form, which is made of 4 mm. acrylic material. To choose a color, following safety regulations, with rounded edges with a radius >2 mm., a highly rigid and light material that is perfect for receiving aerodynamic pressure and directly translating it into downforce.

This product, extracted from the experience of the brand in the Moto GP championship, manages to provide greater air pressure in the front end in high-speed sections and improve cornering.

REF. 20508N

The new Frontal Spoiler GP is the mix of the most advanced knowledge and technologies in the field of competition motorcycling, and has been designed and manufactured entirely in Barcelona.

Made of 4mm ABS, a highly resistant material against impacts, with a matt black finish, it will provide your vehicle with a new aerodynamic plus, in addition to giving it a sport and elegant character according to the aesthetics of your motorcycle.

Mounting it to your motorcycle will be a simple and fast task, without the need for specific mechanical knowledge or tools and without requiring holes for mounting.

ANTI-WHEELIE

ANTI SHIMMIE

More stability on straights.

DOWNFORCE

More composure when braking.

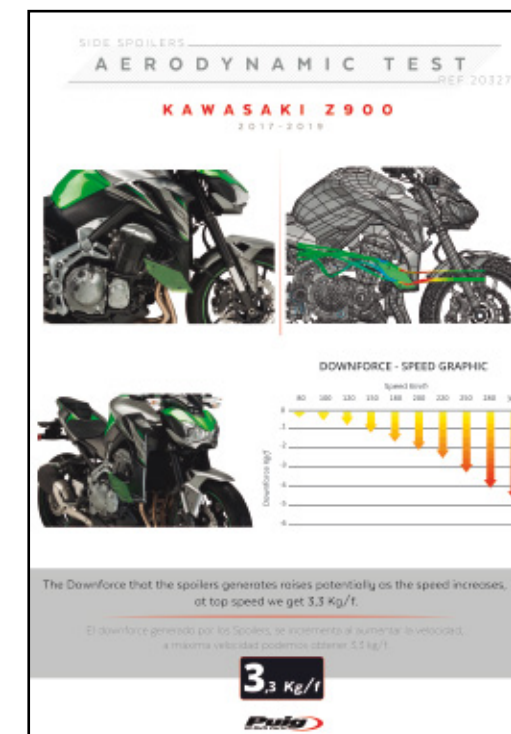

STABILITY

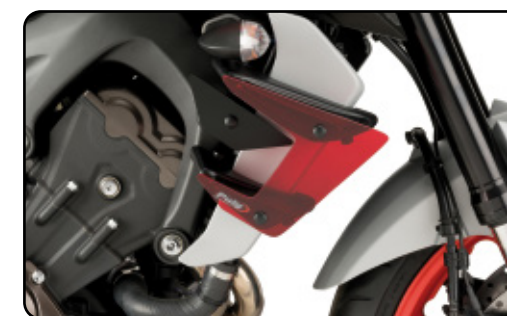

More stability when changing direction.

REF. 20380R

Aerodynamic test supplied along most of our spoilers.

Naked spoilers are made up of:

- Spoiler-covers in matt black ABS material, which are easily installed on your motorcycle by means of metal supports with an anti-corrosion finish in black, light and resistant.
- Deflectors, which are made of 4 mm. thick CN acrylic material and a color to choose from (colors defined according to models). These deflectors have a rounded Ø 4 mm. edge for greater rider safety.

The NAKED spoilers are an adaptation of the most cutting-edge innovations in competition in the field of aerodynamics applied to your motorcycle, providing it with the best performance and an incomparable sport style. Designed and manufactured in Barcelona with the most advanced technologies to achieve a technical product with the best aesthetics and finishes.

WINDSCREEN MODELS

HI-TECH PARTS | TYPE OF WINDSCREEN:

RACING

Doble height Windscren, it drives the air away from your helmet, for supersport bikes.

TOURING

Windscreen taller than the original to provide more protection to the rider.

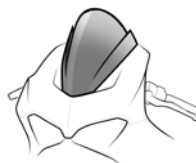

NG SPORT / TOURING

Windscreen with adaptor specifically designed for motorcycles that do not have a screen, especially for Naked models.

STANDARD

Windscreen without supports, form and height are the same as the original windscreen.

Z-RACING

Windscreen with edges in Z form that drives the air away from the helmet. Slightly taller than the original. Wide range of colors.

TOURING PLUS

Windscreen larger than the Puig Touring model, for certain models of motorcycle tourer for maximum aerodynamic protection.

TOURING WITH VISOR "CLIP ON"

Higher windscreen than the original to which is assigned a multi-adjustable visor that is fixed with a system called "clip-on" to divert the air from the rider and provide maximum comfort when driving.

SPORT

Windscreen without supports, lower than the original windscreen.

R-RACER

Windscreen that comes from competition, without edges. Significantly taller than the original one. Available in smoked colors.

TOURING WITH VISOR

Higher windscreen than the original that incorporates a multi-adjustable screwed visor to divert air from the rider and provide comfort.

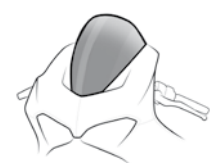

ADJUSTABLE

Windscreen that can be adjusted in height, with or without tools and adjust it to the most suitable position for each rider / situation.

WINDSCREEN MODELS

HI-TECH PARTS | TYPE OF WINDSCREEN:

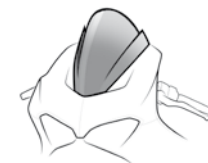

STANDARD

Windscreen without supports, form and height are the same as the original windscreen.

SPORT

Windscreen without supports, lower than the original windscreen.

RACING

Doble height Windscreen, it drives the air away from your helmet, for supersport bikes.

Z-RACING

Windscreen with edges in Z form that drives the air away from the helmet. Slightly taller than the original. Wide range of colors.

R-RACER

Windscreen that comes from competition, without edges. Significantly taller than the original one. Available in smoked colors.

NG SPORT / TOURING

Windscreen with adaptor specifically designed for motorcycles that do not have a screen, especially for Naked models.

TOURING

Windscreen taller than the original to provide more protection to the rider.

TOURING PLUS

Windscreen larger than the Puig Touring model, for certain models of motorcycle tourer for maximum aerodynamic protection.

TOURING WITH VISOR

Higher windscreen than the original that incorporates a multi-adjustable screwed visor to divert air from the rider and provide comfort.

TOURING WITH VISOR "CLIP ON"

Higher windscreen than the original to which is assigned a multi-adjustable visor that is fixed with a system called "clip-on" to divert the air from the rider and provide maximum comfort when driving.

ADJUSTABLE

Windscreen that can be adjusted in height, with or without tools and adjust it to the most suitable position for each rider / situation.

WINDSCREEN MODELS

HI-TECH PARTS | TYPE OF WINDSCREEN:

STANDARD

Windscreen without supports, form and height are the same as the original windscreen.

SPORT

Windscreen without supports, lower than the original windscreen.

RACING

Doble height Windscreen, it drives the air away from your helmet, for supersport bikes.

Z-RACING

Windscreen with edges in Z form that drives the air away from the helmet. Slightly taller than the original. Wide range of colors.

R-RACER

Windscreen that comes from competition, without edges. Significantly taller than the original one. Available in smoked colors.

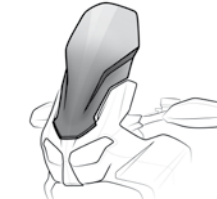

NG SPORT / TOURING

Windscreen with adaptor specifically designed for motorcycles that do not have a screen, especially for Naked models.

TOURING

Windscreen taller than the original to provide more protection to the rider.

TOURING PLUS

Windscreen larger than the Puig Touring model, for certain models of motorcycle tourer for maximum aerodynamic protection.

TOURING WITH VISOR

Higher windscreen than the original that incorporates a multi-adjustable screwed visor to divert air from the rider and provide comfort.

TOURING WITH VISOR "CLIP ON"

Higher windscreen than the original to which is assigned a multi-adjustable visor that is fixed with a system called "clip-on" to divert the air from the rider and provide maximum comfort when driving.

ADJUSTABLE

Windscreen that can be adjusted in height, with or without tools and adjust it to the most suitable position for each rider / situation.

WINDSCREEN MODELS

HI-TECH PARTS | TYPE OF WINDSCREEN:

STANDARD

Windscreen without supports, form and height are the same as the original windscreen.

SPORT

Windscreen without supports, lower than the original windscreen.

RACING

Doble height Windscreen, it drives the air away from your helmet, for supersport bikes.

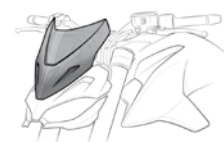

Z-RACING

Windscreen with edges in Z form that drives the air away from the helmet. Slightly taller than the original. Wide range of colors.

R-RACER

Windscreen that comes from competition, without edges. Significantly taller than the original one. Available in smoked colors.

NG SPORT / TOURING

Windscreen with adaptor specifically designed for motorcycles that do not have a screen, especially for Naked models.

TOURING

Windscreen taller than the original to provide more protection to the rider.

TOURING PLUS

Windscreen larger than the Puig Touring model, for certain models of motorcycle tourer for maximum aerodynamic protection.

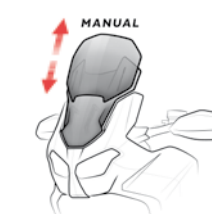

TOURING WITH VISOR

Higher windscreen than the original that incorporates a multi-adjustable screwed visor to divert air from the rider and provide comfort.

TOURING WITH VISOR "CLIP ON"

Higher windscreen than the original to which is assigned a multi-adjustable visor that is fixed with a system called "clip-on" to divert the air from the rider and provide maximum comfort when driving.

ADJUSTABLE

Windscreen that can be adjusted in height, with or without tools and adjust it to the most suitable position for each rider / situation.

WINDSCREEN MODELS

HI-TECH PARTS | TYPE OF WINDSCREEN:

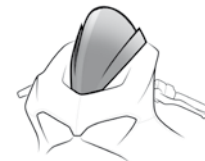

STANDARD

Windscreen without supports, form and height are the same as the original windscreen.

SPORT

Windscreen without supports, lower than the original windscreen.

RACING

Doble height Windscreen, it drives the air away from your helmet, for supersport bikes.

Z-RACING

Windscreen with edges in Z form that drives the air away from the helmet. Slightly taller than the original. Wide range of colors.

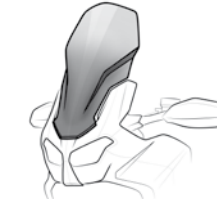

R-RACER

Windscreen that comes from competition, without edges. Significantly taller than the original one. Available in smoked colors.

NG SPORT / TOURING

Windscreen with adaptor specifically designed for motorcycles that do not have a screen, especially for Naked models.

TOURING

Windscreen taller than the original to provide more protection to the rider.

TOURING PLUS

Windscreen larger than the Puig Touring model, for certain models of motorcycle tourer for maximum aerodynamic protection.

TOURING WITH VISOR

Higher windscreen than the original that incorporates a multi-adjustable screwed visor to divert air from the rider and provide comfort.

TOURING WITH VISOR "CLIP ON"

Higher windscreen than the original to which is assigned a multi-adjustable visor that is fixed with a system called "clip-on" to divert the air from the rider and provide maximum comfort when driving.

ADJUSTABLE

Windscreen that can be adjusted in height, with or without tools and adjust it to the most suitable position for each rider / situation.

SEMIFAIRING RALLY

HI-TECH PARTS | TECHNICAL SECTION

Puig
Off-Road

NEW!

REF. 20507

The Rally semifairing is a complement for your off-road motorcycle that will allow you to:

- Improve aerodynamics thanks to the polycarbonate screen that redirects the air, improving the rider's protection.
- Improve lighting thanks to two LED headlights if we compare them to the originals of the motorcycle.
- Install the navigation system that best suits your needs, such as a Roadbook, Mobile Phone or a GPS and adjust it to the position you want, resisting the bumps and jumps that may occur when on the road. It should also be noted that your navigation system will be 100% protected by the screen from possible impacts, stones, dust...

M.E.M.

HI-TECH PARTS | TECHNICAL SECTION

M.E.M. (Manual Elevation System)

Compact mechanism that allows you to modify the position of the screen of your motorcycle without tools so you can adapt to the different situations that the route demands, raising it and increasing the aerodynamic protection on fast roads or adverse weather conditions, or reducing it in city or offroad driving for a wide field of view without interference, or for a more sport look.

You will be able to activate the mechanism and place the screen in the position you want with a quick and easy twist on the fixings, and fix it again with just your hands, without the need for tools. The mechanism is used for your OEM screen or for Puig screens for your motorcycle.

LOWEST POSITION

HIGHEST POSITION

Aerodynamic tests supplied along with most of our windscreens.

WINDSHIELDS FOR MAXISCOOTERS

HI-TECH PARTS | TECHNICAL SECTION

SCREEN TESTED IN THE VIRTUAL WIND TUNNEL

The V-Tech design has been developed through our Virtual Wind Tunnel to improve and OEM aerodynamic penetration. Its angulated shapes on its central and side sections eases the wind canalization redirecting it to both sides of the rider, minimizing turbulences and keeping the radical look of the pieces.

PUIG

OEM

Improved aerodynamics and wind protection on average +24%.

REF.1666

PUIG

OEM

Wind pressure comparison between V-Tech Line Puig and OEM.

WINDSHIELD SPECIFIC FOR NON-ROUND HEADLIGHTS

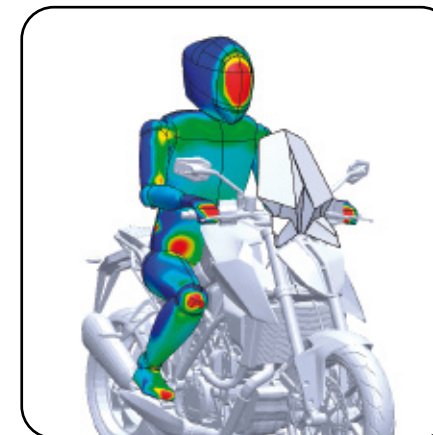

HI-TECH PARTS | TECHNICAL SECTION

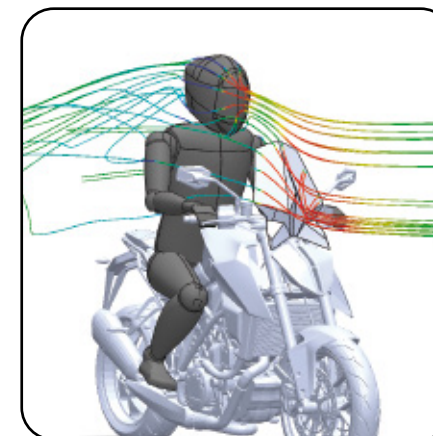

VIRTUAL WIND TUNNEL TESTED

● Lower pressure
● Max. pressure
Wind pressure without
Windshield Naked New
Generation Puig.

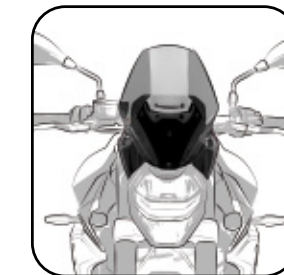

● Lower pressure
● Max. pressure
Wind pressure with
Windshield Naked New
Generation Puig.

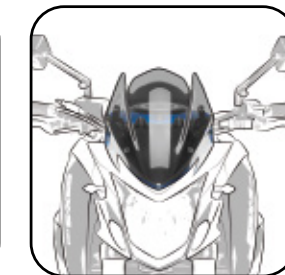

Improve aerodynamics
and windprotection.

At PUIG, depending on the model, we apply a silkscreen or not on our windscreens to hide unattractive parts of the motorcycle.

F900R
Serigraphed windshield brilliant
in the interior

GSX-S750
Windscreen without silkscreened

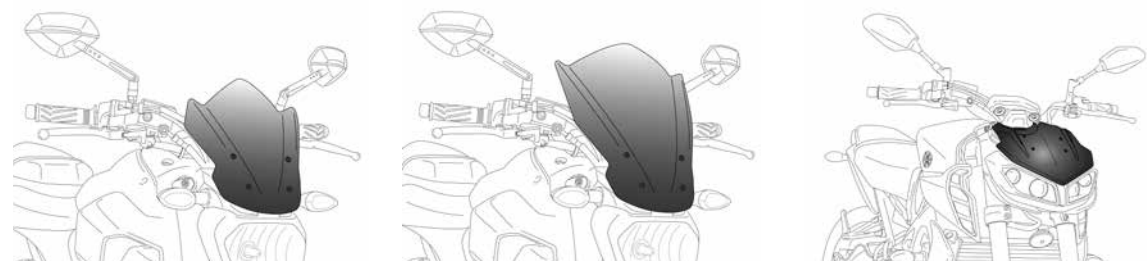

Z900
Silkscreened windshield in black
matt on the outside

The shape of the windshield may vary according to the motorcycle model. Please visit our website.

OFF-ROAD LEVERS

HI-TECH PARTS | TECHNICAL SECTION

FOLDS OUTWARD

Adaptor designed with spring which allows the lever to swing forward to avoid the lever to twist or break.

DESIGN

Exclusive design: Clutch lever - length of lever for 4 fingers. Brake lever - length for 3 fingers.

REGULATION

The adjustable system allows to adjust the position for rider's needs.

RADIKAL GRIPS

HI-TECH PARTS | TECHNICAL SECTION

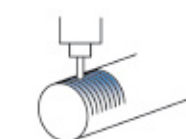

HANDLEBAR
Suitable for diameter 22 mm.

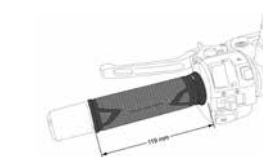

RUBBER
Non-skid texture.
Pleasant compound.

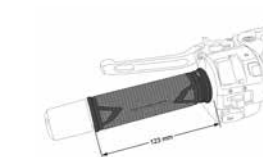

WEIGHT
Reduced to 64 grams.

DETAIL
Aluminium anodized insertion in different colors.

DIMENSIONS
Long 119 mm.

DIMENSIONS
Long 123 mm.

*** IMPORTANT:** Due to the wide variety of original grips, some motorcycles may need to lower the edges of the gas throttle and the use of glue (such as Fischer MS Express) for a correct fixation.

In motorcycle models where it is not possible to separate the rubber grip from the gas cane because they are one piece, it is not possible to install the grips.

MOTORCYCLE HANDGUARDS

HI-TECH PARTS | TECHNICAL SECTION

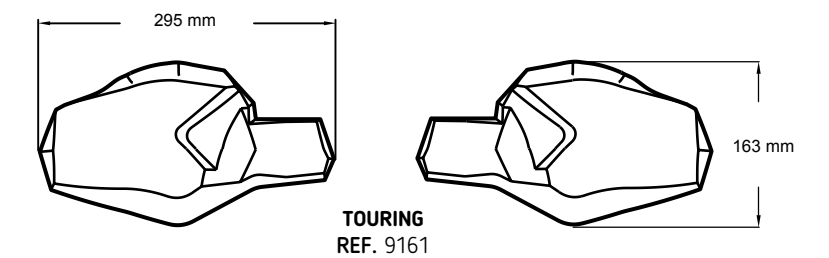

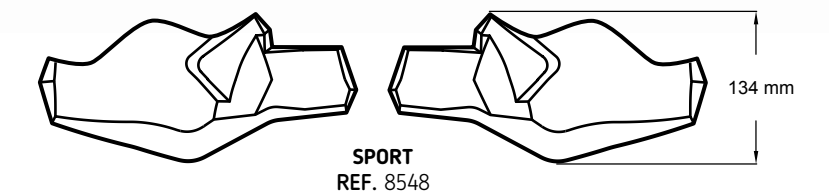

Puig offers a wide range of handguards for those motorcycles that do not have them. Manufactured in a matt black plastic material. They are light, durable and matching your motorcycle lines.

Designed with the best aerodynamic software to protect your hands and arms from the rain, air and possible small impacts from small rocks or insects.

Available in two models according to the protection or style you prefer, sport or touring.

-  J Matt black
-  C Carbon look

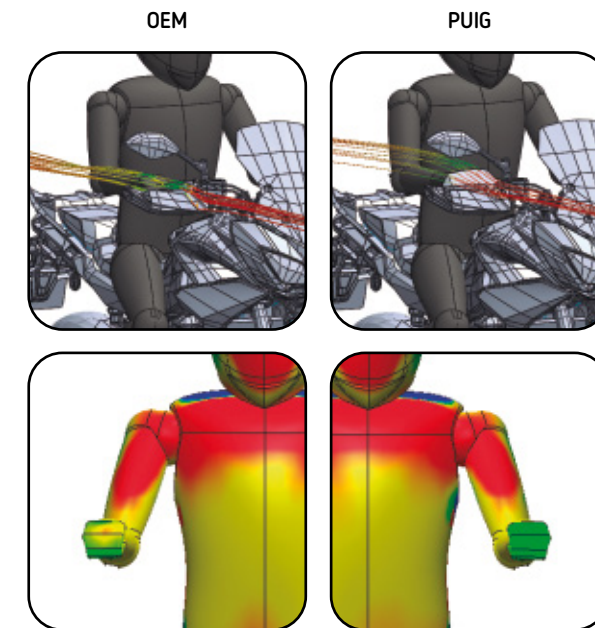

FOR SPECIFIC MODELS SEE PAGE 322.

MOTORCYCLE HANDGUARD EXTENSIONS

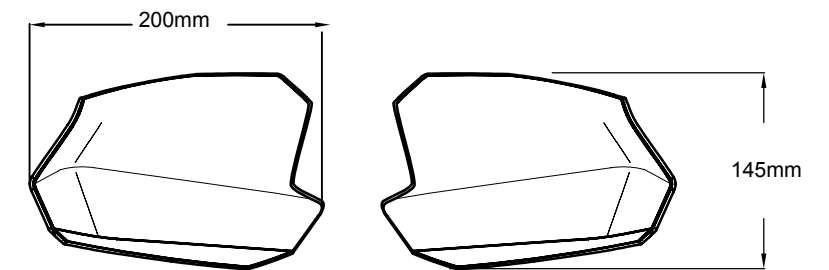

HI-TECH PARTS | TECHNICAL SECTION

REF. 8184H

The Puig handguard extension is a product destined to the client that looks for maximum protection or that suffers from the impact of the wind on his arms and shoulders.

These small and discrete parts have been specially designed through a comprehensive aerodynamic study to redirect air flow, water or small impacts to your upper arms and thus offering the best riding comfort.

REF. 8184

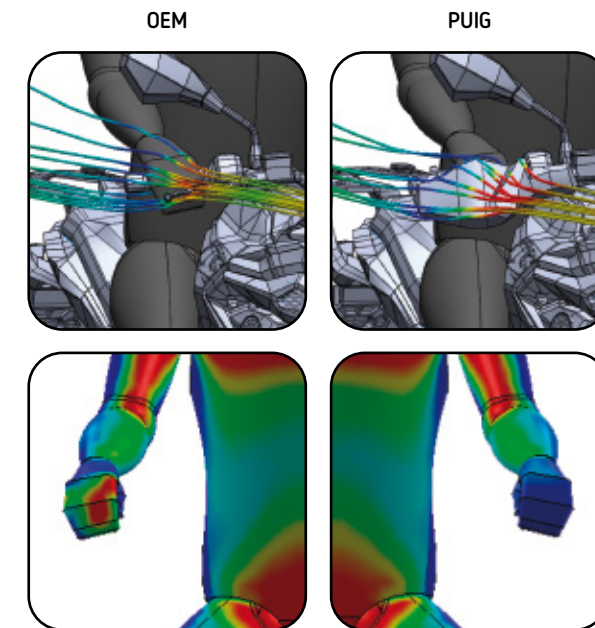

- H Smoke
- F Dark Smoke
- W Transparent
- T Orange

FOR SPECIFIC MODELS SEE PAGE 322.

MAXISCOOTER HANDGUARDS

HI-TECH PARTS | TECHNICAL SECTION

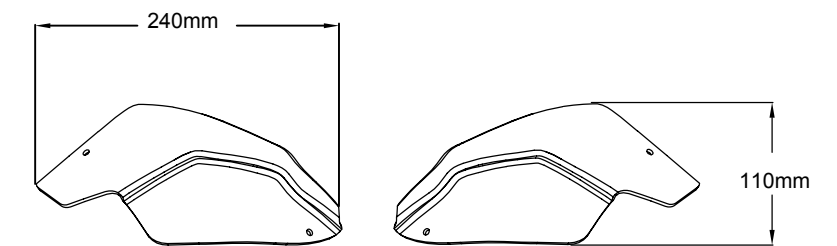

REF. 9652H

Puig offers a line of handguards for Scooters and Maxiscooters. They are fabricated in very durable material, they are light and made with soft and discrete lines that will match your motorcycle perfectly.

Designed with the best aerodynamic software to protect your hands and arms from the rain, air and possible small impacts from small rocks or insects.

Available in three shades, smoke, dark smoke and transparent.

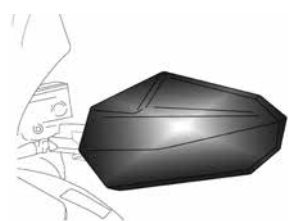

REF. 9652

MOBILE PHONE SUPPORT

HI-TECH PARTS | TECHNICAL SECTION

 N Black

REF. 3836N

HORIZONTAL SMARTPHONE PHONE HOLDER

Thanks to the Puig phone holder you can use your smartphone as a browser without suffering for its integrity and security. In addition, in our catalog you will find a line of accessories related to your mobile phone and its protection during journeys of all kinds and with different weather scenarios.

The support will allow you to integrate your phone comfortably and without affecting the final visibility of the road. The locking mechanism adapts to the inches of today's phones. The padded area on the sides and the back, where it rests, improves its grip, and prevents vibration that could affect its operating system.

You can mount the phone holder on the base of the mirror, the mirror rod, on the handlebar and on the seat post of the motorcycle where it will be more immobilized against possible impacts or potholes on the road.

REF. 3756N

REF. 3756P

SUPPORT TO CENTRAL HOLE YOKE

MODEL	REF.	N	P
UNIVERSAL			
SUPPORT TO CENTRAL HOLE YOKE	3756N		(*)

Universal support for Sport motorcycles. It is fixed in the center of the yoke axle. Allows you to adjust the inclination and lateral movement. It consists of a machined aluminum body in silver or black, with a bar of the same color and a plastic support with an adjustable hemisphere that allows a quick adjustment without tools.

It can be mounted on any motorcycle that has a hole in the yoke axle (or a plug) with dimensions between Ø13 and Ø18, where the stamping pin will pass. Easy to assemble.

Compatible with the mobile phone holder Ref.3836N and the Puig Motoplasic quick-fix covers Ref.3530N and 3531N. Check the compatibility of the motorcycle at Puig Motoplasic website.

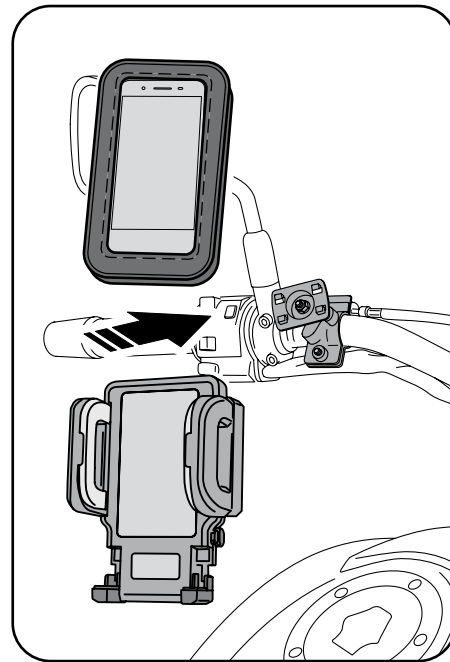

Available for a wide range of models, consult adjustability to the motorcycle model in the web.

■ P Silver

■ N Black

IMPORTANT: Indicate code color after part#. Example 0973A.

This element allows you to directly adjust the support for the Smartphone to the handlebar of the motorcycle. It is made out of two halves that adjust to each other with the handlebar in between, while they adjusted through a thumbscrew. We also offer different thickness rubber spacers, so that it ends up perfectly adjusted to the motorcycle.

Compatible with the mobile phone holder Ref.3836N and the Puig Motoplastic quick-fix covers Ref.3530N and 3531N.

This part is good for any handlebar that has a diameter of Ø20 until Ø25 mm and just like any of our supports, it is compatible with our cel phone covers.

Support for the rearview mirror base, it is an universal support with complete mobility, 360° and also allows 100% adjustability to guarantee the best view during the ride, so the rider doesn't loose focus of the road.

Compatible with the mobile phone holder Ref.3836N and the Puig Motoplastic quick-fix covers Ref.3530N and 3531N.

The support is made of a metal base and a semi-rigid arm that guarantees a perfect attachment to the base of the rearview mirror. This support is good for all those motorcycle models that carry the rearview mirrors over the handlebars and are also compatible with Puig's covers.

RADIATOR SIDE PANELS

HI-TECH PARTS | TECHNICAL SECTION

PROTECTION
Protects the rider from inclement weather.

They cover the radiator's side edges and provide a continuous air flow around the rider's legs.

HI-BEAM 2.0 AUXILIARY LIGHTS

HI-TECH PARTS | TECHNICAL SECTION

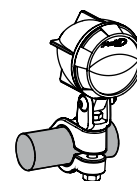

HOMOLOGATED

DIMENSIONS

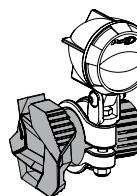

ADJUSTABLE

ADAPTABLE

Adjustable to 25 mm diameter tube.

ADAPTABLE

Adjustable to R12/R19 frame sliders* with clamp Ref. 20756N

* Check that the mounting of the headlight does not interfere with the frame of the motorcycle.

Universal fog lights and aluminium case painted black.

LED technology with low power consumption, avoiding putting the battery in danger due to excessive consumption.

Supplied with instructions on our engine guards.

Equipped with a fuse and cables to connect directly to your battery and with a water proof switch to be installed on your handlebars.

Aluminum housing designed to promote heat dissipation.

TECHNICAL CHARACTERISTICS:

Low consumption: 30w (15w per light)

Voltage: DC 12v

Lumens: 2000L M(1000L M/light)

Material: PC Lenses / Aluminum housing

HI-BEAM AUXILIARY LIGHTS

HI-TECH PARTS | TECHNICAL SECTION

HOMOLOGATED

Universal fog lights and aluminium case painted black.

LED technology with low power consumption, avoiding putting the battery in danger due to excessive consumption.

Supplied with instructions on our engine guards. Fit engine guards between 23 and 25 mm diameter.

Equipped with a fuse and cables to connect directly to your battery and with a water proof switch to be installed on your handlebars.

Aluminum housing designed to promote heat dissipation.

Optional metallic grill protections for offroad use.

Sells separately (Ref. 9785N)

TECHNICAL CHARACTERISTICS:

Low consumption: 40w (20w per light)

Voltage: DC 12-24v

Lumens: 4000L M(2000L M/light)

Material: PC Lenses / Aluminum housing

MOUNTING: To mount the auxiliary lights on the Puig engine guards use only one of the two spacers that carries the support and the allen screw M6 x 50.

RESISTOR SET FOR LEDS TURN SIGNALS AND FLASHER RELAYS

HI-TECH PARTS | TECHNICAL SECTION

TECHNICAL INFO TURN SIGNALS CONNECTIONS:

Most of the bikes use bi-metallic relays. Its frequency (which is the one that sets the pace of the turn signals) depend on the amperage circulating through the circuit. When replacing the turn signals from OEM to aftermarket ones which carry a difference power, consequently they vary the amperage circulation through the circuit that causes a change on the frequency of the turn signals rhythm. If otherwise, the motorcycle uses electronic relay (which frequency works independently from the amperage circulating through the circuit) the change of turn signals from OEM to aftermarket, should not affect the frequency of the turn signals rhythm.

Note: In case of doubt of what type of relay the motorcycle uses, we recommend to check the turn signal rhythm after switching from OEM to aftermarket.

If the OEM turn signals are replaced by aftermarket ones that use incandescent bulbs, we need to check they use the same power. In case it is different, we need to replace the turn signals bulbs for others that use the same power as OEM ones. On our catalog, we have available bulbs of different power.

If the OEM turn signals are replaced by LED ones (of much less power than incandescent bulbs), we have two options to balance the frequency of rhythm:

1. Incorporate a parallel relay in the right circuit and the other on the left circuit. If we replace four turn signals, we need to use a resistance Part# 42980. If otherwise, only two turn signals are replaced (one on each side), we need to use a resistance Part# 42980. The resistances are supplied with a scheme for a parallel connection.

Note: On most of the bikes, the warning function of the bike is disabled if the resistance is used.

2. Identify the intermittent relay of the motorcycle (location and number of pins) and replace it for its corresponding from the list supplied on most of the bikes, the warning functions work correctly when the relay is replaced.

Note: we can find some motorcycles in the market that do not have an intermittent relay, obviously in this case it cannot be replaced. Moreover, if on the blinking function intervenes more than one relay, it is possible that replacing only one relay does not solve the problem.

SUPPORT FOR ORIGINAL TURN SIGNAL

HI-TECH PARTS | TECHNICAL SECTION

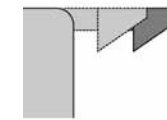

FUNCTION

They allow the assembly of the original turn signals in the PUIG license plate holders.

MATERIAL

Made of steel.
Finished with epoxy black paint.

OPTICS

Hides the empty section left by the original turn signal once replaced.

REF. 9320N

 N Black

FOR SPECIFIC MODELS SEE PAGE 452.

FOOTPEGS ADAPTORS

HI-TECH PARTS | TYPE OF FOOTPEGS ADAPTORS:

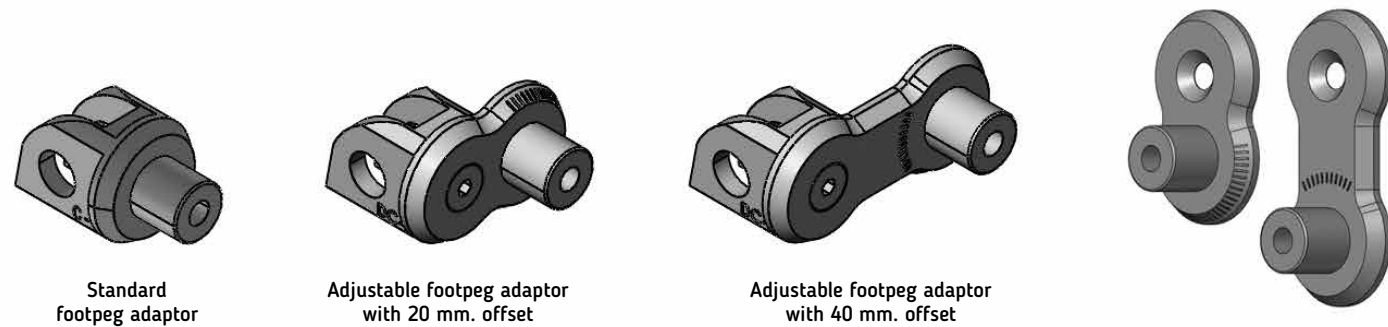

At Puig we have developed a new range of footpeg adaptors that allows the rider to adjust the position of the foot to their liking and at the same time improve their ergonomics on the bike. The image below shows you the difference between the non-adjustable footpeg adaptors and the new adjustable footpeg adaptors (with 20 mm. offset). Adjustable footpeg adaptor and standard is not the same part number.

Standard footpeg

Adjustable footpeg

Two types of shifters are offered depending on the degree of offset desired. The 20 mm. displacer has been designed for rider and passenger. On the other hand, the 40 mm. displacer has been developed only for the passenger and especially for sports motorcycles.

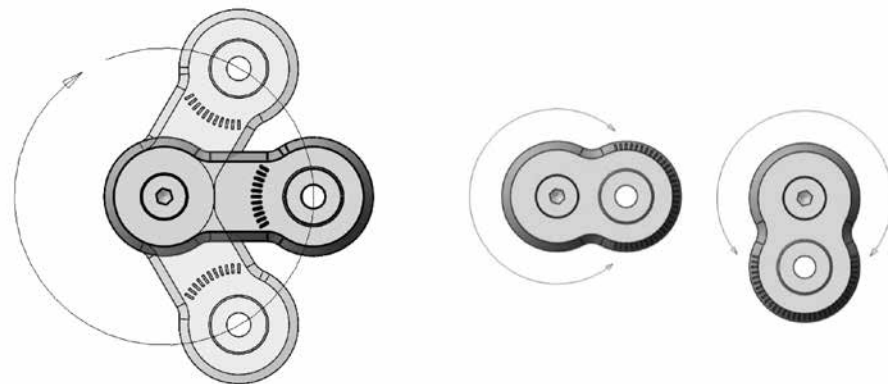

Standard footpeg adaptor

Adjustable footpeg adaptor with 20 mm. offset

Adjustable footpeg adaptor with 40 mm. offset

The displacer allows for both a more relaxed and sporty ride. For example, riders with small feet can move the footrest further forward for greater control. And those who prefer a sportier ride can choose to set back the footpegs. All this is possible due to the adjustment options that the displacer allows, the footrest pivots 360° in 15° intervals.

ENGINE PROTECTIVE COVERS

HI-TECH PARTS | TECHNICAL SECTION

REF. 20134N

MATERIAL

Manufactured in 4 mm. thick polypropylene for strength, durability and good appearance. The covers are simply bolt-on on the oem engine case.

Compact for a maximum distance to the ground, matt finished, and protecting one of the most vulnerable areas of the machine.

AXLE SLIDERS PHB19

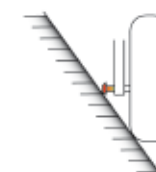

HI-TECH PARTS | TECHNICAL SECTION

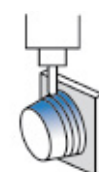

* Check availability for motorcycle models at www.puig.tv typing in the searching window.

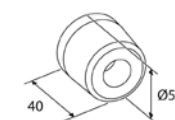

DESIGN
Racing look for your motorcycle.

COMPLETE PROTECTION
Fork and swing arm protection.

MATERIAL
Manufactured through a nylon block.

DIMENSIONS

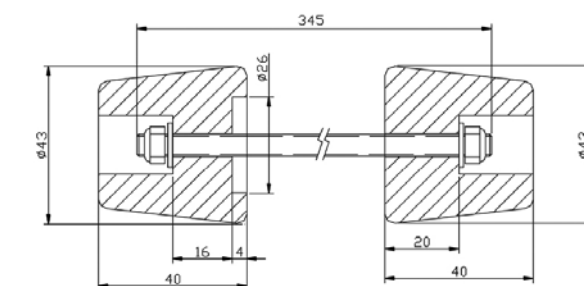

265gr.

WEIGHT
Reduced to 265 grams.

The set of anodized aluminium rings must be ordered separately from the sliders, depending on the color of the bike.

Delivery Delivery Boxes Delivery Delivery Boxes Delivery Boxes

Motoplastic-Puig has a blowing division specialized in the manufacture of special trunks for the delivery sector and supports for the best-selling scooters. Presented in different formats and sizes to meet all transportation needs. They are made of polypropylene with high resistance to impact and with a certificate of suitability for contact with food. Its manufacturing system guarantees an excellent ratio between the weight of the trunk, its load capacity and shock absorption. They come in three colors and with a locking system that allows its use with or without a key. As they are references of considerable volume and as they are shipped directly from the manufacturing plant, the shipping costs will be billed separately, even if the amount paid is reached for orders over € 500 gross.

SALES CONDITIONS

- 1% extra discount sending the order through our extranet on www.puig.tv.

RETURN PROCEDURES

- No return will be accepted after 3 months from shipping note.
- The return must be accepted from Motoplastic S.A., after verification of the material by an agent in the area or, otherwise, through an email sent to devoluciones@puig.tv requesting the return along with detailed images.
- If the return is not Motoplastic's fault, 20% devaluation will be applied and material will need to be sent paid for.
- If the return is because of the transport, the customer will need to send us the transporter's shipping note where should be noted, at the time of the reception of the cartons, the disagreement of the condition of the material. Additionally, images of the cartons in bad condition will need to be sent to us.

BRAND AND IMAGES

PUIG® is a registered brand.

The images from this catalog and site www.puig.tv are property of Motoplastic, S.A. and need authorization from Motoplastic, S.A. for its use.

Motoplastic, s.a. does not have any link with brands HONDA, YAMAHA, SUZUKI, KAWASAKI, APRILIA, BMW, BUELL, CAGIVA, DERBI, DUCATI, HYOSUNG, KTM, MV AGUSTA, PEUGEOT, TRIUMPH and others mentioned. All products registered brand, model or initials, are named with only purpose to cross reference with accessories of our own production.
